Acknowledgments

There were many individuals and organizations involved in this collaborative effort to collect youth development data from Iowa's 6th, 8th, and 11th grade students. Thank you to all who contributed to the collection and analyses of the 2012 Iowa Youth Survey data.

We wish to directly thank all the district superintendents, principals, teachers, counselors, facilitators, parents, and students for their incredible effort. Conducting the Iowa Youth Survey is a learning experience, and the knowledge gained provides the opportunity to be even more successful in subsequent years. Your comments and suggestions continue to be essential.

Overview

In September through November of 2012, the Iowa Department of Public Health (IDPH) collaborated with schools in Iowa to conduct the 2012 Iowa Youth Survey (IYS). The 2012 IYS is the fourteenth in a series of surveys that have been completed every two or three years since 1975. The survey is conducted with students in grades 6, 8, and 11 attending Iowa public and private schools. The IYS includes questions about students' behaviors, attitudes, and beliefs, as well as their perceptions of peer, family, school, neighborhood, and community environments.

Background

Prior to 1999, surveys were given to a sample of students in 6th, 8th, 10th, and 12th grades from approximately one-third of Iowa's public school districts. In 1999, IYS participation was sought from *all* students in grades 6, 8, and 11 attending public school districts, as well as from students aged 14 to 18 years in alternative programs. This change made it possible to provide youth development data for each participating school district and each county in which participating students reside. The change also made it more feasible to use IYS results to aid in assessing outcomes of community and school youth development programs. It is important to note that the 1999 change in the grade level restricts direct comparisons with survey data collected prior to 1999.

Beginning in 2002, IYS participation was also sought from all non-public schools. This change was made to more accurately reflect the attitudes and perceptions of all Iowa students in grades 6, 8, and 11, not just those attending public schools. Data collected from students attending non-public schools are included in the 2002 and later reports.

In 2008, a change in the method used to conduct the survey took place. All 2008 Iowa Youth Surveys were conducted via the internet and completed by students online through an electronic survey tool (SurveyMonkey) administered by Iowa Department of Administrative Services in conjunction with Iowa Department of Public Health. To ensure a smooth transition for this new procedure, an online pilot test took place in 2007 involving nine school districts. Prior to implementation of the 2008 IYS, training for school district personnel was held via the Iowa Communications Network (ICN) to provide instruction for online IYS administration.

Also in 2008, the decision was made to change the IYS completion schedule from every three years to every two years. Future Iowa Youth Surveys will be completed in even numbered years, beginning with 2010.

In 2010, school district changes in funding mechanisms reduced the incentive for school districts to participate in the IYS. Due to these changes, fewer school districts initially signed up to participate.

In 2012 in an effort to reduce the amount of time it takes younger students to complete the IYS, modifications were made to the structure of the survey without changing the content. Skip questions were introduced for alcohol (B14), tobacco (B28), and marijuana use (B36), as well as gambling (B47) and suicidal ideations (B61, B62, and B63). This change, if all skip outs are selected, would reduce the survey length by 34 questions. When a "no" response to a skip question is selected, all questions corresponding to this section are classified with null responses (No, Never, etc.) as well.

Objectives
The 2012 Iowa Youth Survey county reports are designed to help local- and state-level planners, community agencies, and school personnel identify youth development needs, implement relevant, targeted interventions, and assess outcomes. IYS data can assist in providing a better understanding of students in Iowa and their needs. It can also help to assess the strengths and challenges of schools, families, and communities from the young person's perspective. In addition, IYS data may be used to obtain funding for a wide variety of programs and services. The Iowa Youth Survey has proven to be a valuable resource in youth needs assessment, program development, implementation, and outcome evaluation.

Iowa Youth Survey reports can also help Iowa's school districts assess their relative strengths and weaknesses as well as collaborate with community providers to develop programs to meet students' needs. In addition to the County reports, population-specific IYS reports are publicly available. For more information, please check the IYS website: www.iowayouthsurvey.iowa.gov for the availability of State, Iowa Area Education Agency (AEA), Judicial District, Iowa Department of Public Health Substance Abuse Prevention Service Area, and Trend reports. The total percentages provided in these additional reports, as well as the breakdowns by grade level and gender, can be compared with the respective State of Iowa report percentages to view similarities and differences by region or population.

As in previous IYS reports, the 2012 IYS County reports are based on the county of residence reported by students completing the survey. The report data portray the behaviors, attitudes, beliefs, and perceptions of students residing in a county; however, it is possible that some students reside in one county and attend school in a neighboring county. Therefore, some responses may reflect conditions perceived in a school located in a neighboring county and not necessarily perceptions relating to the school(s) located in the student's county of residence.

2012 Iowa Youth Survey

Profile of Participation
The 2012 Iowa Youth Survey was conducted September 24, 2012 through November 9, 2012. A total of 70,770 validated records were received from students across the state. Data in this report assumes each record represents one student. Validated records were received from 69,068 students attending public school districts, and 1,702 students attending non-public schools. Records were identified from 255 of Iowa's 348 public school districts (73%), and from 21 of the 175 non-public schools (12%), for students enrolled in grades 6, 8, or 11. These records may represent additional districts (e.g., when districts whole grade share, when multiple districts reported the same district number, when districts shared their unique Survey Monkey URLs, etc.). The 70,770 validated records received from students completing the IYS represented all 99 counties in Iowa. Nearly all Iowa counties were represented by a minimum of 200 students each. Of these, 71 records were from Butler County. Data in this report assume each record represents one student.

The number of students participating in the 2012 IYS was lower than in 2010. This was largely due to the changes in funding mechanisms that reduced the incentive for school districts to participate in the IYS. In general, the higher the percentage of students completing the IYS in a school district, the more likely the data are representative of students in grades 6, 8, and 11 attending school in that district.

Survey Content
The 2012 Iowa Youth Survey contains 211 questions and is divided into seven sections (A-G).

Section A. Demographic Characteristics (9 questions)
Section B. Things I Have Tried or Done and Things That Have Happened To Me (64 questions)
Section C. My Beliefs and Attitudes (18 questions)
Section D. Peer Questions (11 questions)
Section E. School Questions (63 questions)
Section F. Family Questions (20 questions)
Section G. Community Questions (26 questions)

A committee of youth development professionals was designated by IDPH to review and make recommendations regarding the 2012 survey questions. The selection of specific survey questions was based on analysis of question and response data collected in previous Iowa Youth Surveys. The general content of the questions included in the 2012 IYS is similar to that of previous surveys. Approximately three-quarters of the questions and response options from the 2010 IYS were utilized with little or no modification; twenty-seven questions from the 2010 IYS were eliminated, thirty questions from the 2010 IYS were significantly changed, and twenty-four new questions were added. Changes made to the 2012 IYS questions were made to elicit additional, more detailed information on suicide, feelings about the school environment, and supportive peer environments.

The appropriateness of any comparison between the 2012 IYS to surveys from previous years must be considered on a question by question basis. It is important to note that in some cases, the question numbers have changed from year to year. The question wording, response options, and time frames may also have changed. Trend analyses should be considered exploratory at best. If comparisons are made, the results may *appear* to be significantly different, for better or worse, from the results generated by previous surveys. However, this appearance may be due to differences in question wording and the representativeness of the sample rather than actual changes in Iowa's youth.

Data

Data Cleaning
A total of 72,055 IYS records were received. Following the data cleaning process, 1,285 records were removed, leaving a total of 70,770 validated Iowa Youth Survey records. Unique collector ID numbers and survey links were assigned to each individual school district. Data cleaning included cross referencing and matching uniquely assigned collector IDs with the school district and building code as entered by the students. Internet protocol numbers were collected automatically on each response and were also used to identify errant records. Date and time checks were used. Information obtained from census forms provided by school districts following survey administration was also reviewed to assure expected numbers of records appeared for each district. Analysis was also performed to identify records with no responses recorded in Sections B through G (i.e., the non-demographic content of the survey). Since it was possible for a student to simply refuse to answer any question by leaving it blank, not all of the records with missing responses were removed.

Many logic checks for several sections of the IYS became obsolete with the introduction of skip questions in 2012. For example, students can no longer provide inconsistent responses for ever having smoke cigarettes. Consequently, many of the logic check protocols required in previous years were omitted with this administration.

The addition of skip questions in 2012 helped to shorten the survey for many respondents, but did present new data cleaning issues. First, SurveyMonkey treats questions that were skipped due to logic the same as missing data so null responses were inserted where applicable during the data cleaning process.

Second, some records included both a no response to a skip question and responses to the following questions. These situations may have occurred when a respondent first answered "Yes" to a skip question, started answering the following questions, and then went back to change their response to the skip question to "No." If the "No" response to the skip question and the follow-up questions that were answered were all no/null, the responses stand and the rest of the skipped questions were set to no/null. If the skip question is answered with a "No" and at least one follow-up question was answered with a "Yes" or in the affirmative, the skip question response was converted to "Yes" and all follow-up questions were left as is (blanks were left as missing).

The data cleaning process included analysis of longitude and latitude coordinates to determine if the county of residence indicated by the student was likely for the school district indicated by the student. The distance between county of residence and school districts in adjacent or near adjacent counties was analyzed to determine if inter-county distance (distance from the center of one county to the center of an adjacent county) was a reasonable distance for a student to commute to school. In 556 records (0.79% of all validated records) the distance between the county of residence indicated by the student and the county of the student's school district was found to be improbable. These records were converted to the county in which the school district's administrative office was located. While this modification may still result in a few students being assigned to the wrong county of residence, it is much more likely that the cleaning procedure increased the accurate assignment of county of residence.

Data Interpretation

Since every school district did not collect data from every student, and home schooled students may not have been surveyed, there is the possibility that the students who completed the 2012 IYS are not representative of all students in Iowa. Additionally, IYS data do not represent youth who may have dropped out of school. It is unknown what biases non-participating youth might introduce into the IYS report percentages. The 2012 Iowa Youth Survey, as in previous years, is self-reported data and relies on each student's ability to read and honestly respond to each question. Since the 2012 IYS was conducted online, a student's ability to complete the survey is also dependent on possessing basic computer skills. Self-reported behaviors, attitudes, and beliefs are always subject to error (unintentional, such as mistakenly selecting the wrong response or intentional, such as denial or boasting), and it is not possible to identify records where this occurs. Additionally, some surveys contained missing data indicating that not all students answered every question. There are many potential reasons for missing data and why a student may choose not to answer a particular question, including comprehension level (understanding survey language); confidentiality concerns; refusal to provide an answer resulting from lack of interest or motivation; beliefs and attitudes about the subject of the question; or inadvertently skipping a question. In general, the higher the proportion of students participating, the more likely the survey results are representative and without bias. When comparing data from population-specific IYS reports to the state report, the higher the percentage of students that answered the question, the more likely it is that the comparisons with the state report percentages are unbiased.

The county reports are more subject to sampling error than any of the other IYS reports. The more school districts and non-public schools that participated in the IYS, the more likely the

reported percentages are accurate estimates of the attitudes and behaviors of students that reside in the county. The absence of a majority of students from any school district in any county has the potential to produce significant bias, as we do not know if the youth who did not take the survey would have provided similar responses as the youth who did participate. Additionally, students may reside in one county and attend school in a neighboring county. Therefore, some responses may reflect conditions perceived in a school located in a neighboring county and not necessarily perceptions relating to the school(s) located in the student's county of residence. All of these considerations, along with unique county characteristics, should be taken into consideration when comparing county results to state results.

Confidentiality

Since county reports present data from fewer students than the State of Iowa report, several steps were taken to protect confidentiality. While there is no way for an individual student to be connected with his or her particular responses, there are circumstances in which all or nearly all students may be connected to a particular behavior or attitude. This may increase the likelihood of someone making inferences about individual students from the data. For example, if all 11th graders in a school district reported that they used alcohol, essentially every 11th grade student can be identified as using alcohol. Therefore, certain questions and accompanying responses, such as past thirty day use of alcohol, were identified as sensitive. For this subset of questions, any time 10% or fewer of the students do not respond in the *least* sensitive manner, the response data for that question will not be reported. Instead, an asterisk (∗) will appear in place of the percent. For example, if 90% or more of the students responded that they used alcohol in the past 30 days, data in the column will be replaced with the asterisk symbol to aid in protecting confidentiality. Additionally, when the total number of students responding to a question is small, it may be easier to make an assumption about how a particular student or group of students might have responded. Therefore, any time 15 or fewer students responded to a particular question, the asterisk symbol will appear in all response cells in that column. Similarly, in the construct figures, bars for that population will not be present.

Data Presentation

Section I: Data Tables

Data provided in the data tables include the responses to questions that appear in the 2012 Iowa Youth Survey. The county data are presented in the first portion of the table for each question, followed by state results for the same question. Two-hundred eight of the 211 IYS questions are represented and are presented on pages 10 through 124 (the first three questions regarding county number, school district number, and building number are not included in the data table section). The questions and responses provided in this report are written verbatim as appearing in the 2012 survey. Each table contains 13 columns. All percentages are rounded; "0%" appearing in any column represents anything less than 0.5% (including 0 or none). Due to rounding, percentages may not add up to exactly 100%.

The first row of the data tables describes the type of IYS report (i.e., county results on the left and state results on the right). The second row provides the question followed by the 2012 IYS section and question number. Below the question number in the first column are rows containing all possible response options provided on the IYS for that particular question. All percentages in the response rows are based on the number of students who answered that question; missing responses are not included in the calculation. The final row in the table provides the total percentage of all students in that column who responded to the particular question. A low percentage in the last row indicates that some students did not answer that question. In general, the higher the percentage responding, the more likely the responses are

representative of students in Iowa. Data tables on pages 25 through 46 (for variables B16, B33 – B35, and B39 – B45) have an additional row that summarizes all response options that indicate any substance use.

The second through fourth columns below the IYS question, titled "6th Grade," are percentages based on all of the students in the county who answered the question and reported that they were in grade 6. The "TOTAL" column combines all responses (including missing responses for gender), and is followed by data separated for male and female respondents.

Columns five through seven, titled "8th Grade," provide the data described as above for students reporting they were in grade 8. Columns eight through ten, titled "11th Grade," present the same data for students reporting they were in grade 11.

Columns eleven through thirteen, titled "All Grades," include the percentage of all students who reported each of the responses. The results in this column include all of the students in the previous nine columns, as well as students who did not choose grade 6, 8, or 11 when asked to select their grade in school.

Columns fourteen through twenty-five provide the same information as columns two through thirteen for all students in Iowa.

Section II: Alcohol, Tobacco, and Other Drug Use Tables

The prevalence of alcohol, tobacco, and other drug (ATOD) use is presented in three tables on pages 126 through 128. Data in the tables include students who indicated current use (use during the past 30 days) as well as students who indicated ever using. All results in the ATOD tables indicate the percentage of records (or students) indicating use; any indication of use for any of the questions associated with that particular substance were coded as use. In accordance with computations in previous IYS reports, if all other responses in the record indicated no use, responses containing missing data were also coded as no use. Also consistent with previous IYS reports, if all responses were missing, the record is considered to indicate no use. Analyses were performed on missing data patterns to validate that it is reasonable to assume missing data were consistent with no use. Therefore, students who left a question blank are included in the denominator used to calculate the percentage of students who reported use. The criteria for substance use, ever and current, for alcohol, tobacco, and other drugs are defined below. Consistent with the data tables, data are provided for students in the county, followed by data presented for all records in Iowa.

Alcohol Use

- Alcohol Use: Current
  Includes students who reported having at least one drink (glass, bottle, or can of beer; glass of wine, liquor, or mixed drink) in the past 30 days, or reported having five or more drinks on at least one day in the last 30 days. The section and question numbers from the 2012 IYS associated with these criteria are B16, B18, B19, B20, B21, and B22.

- Alcohol Use: Ever
  Includes students who reported that they had ever had a full drink of alcohol. The section and question number associated with this criterion is B14.

Tobacco Use

- Tobacco Use: Current
  Includes students who reported having used a tobacco product in the past 30 days: cigarettes, cigars, or smokeless tobacco. This includes those who reported that they smoked at least part of a cigarette in the past 30 days; smoked cigarettes or cigars on one or more days in the past 30 days; or used smokeless tobacco in the last 30 days. The respective IYS section and question numbers are B29, B33, B34, and B35.

- Tobacco Use: Ever
  Includes students who reported that they had ever smoked tobacco or used any tobacco products. The IYS section and question number associated with this criterion is B28.

- Cigarette Use: Current
  Includes students who reported they smoked at least part of one cigarette in the past 30 days, or reported one or more days of smoking cigarettes in the last 30 days. The respective IYS section and question numbers are B29 and B33.

- Cigarette Use: Ever
  Includes students who reported that they smoked at least part of one cigarette in the past 30 days; that they had ever tried to quit smoking cigarettes; reported an age when they started smoking cigarettes; or reported one or more days of smoking cigarettes in the past 30 days. The associated IYS section and question numbers are B29, B31, and B33.

- Cigar Use: Current
  Includes students who reported one or more days of smoking cigars in the past 30 days. The IYS section and question number associated with this criterion is B34. The prevalence rate for ever using cigars is not provided since this question is not asked in the survey.

- Smokeless Tobacco Use: Current
  Includes students who reported using smokeless tobacco in the last 30 days. The associated IYS section and question number is B35.

- Smokeless Tobacco Use: Ever
  Includes students who reported that they had ever used smokeless tobacco. The associated IYS section and question numbers are B32 and B35.

Drug Use

- Drug Use: Current
  Includes students who reported use of a drug (amphetamines, cocaine, inhalants, marijuana, methamphetamines, or other illegal drug); use of prescription medications not prescribed for the student; use of over the counter medications different from the directions; or use of steroid pills or shots without a doctor's prescription in the past 30 days. The section and question numbers associated with these criteria are B37, B39, B40, B41, B42, B43, B44, and B45.

- Drug Use: Ever
  Includes students who reported use of a drug (amphetamines, cocaine, inhalants, methamphetamines, or other illegal drug), or use of steroid pills or shots without a doctor's prescription in the past 30 days. Also included are students who reported an age of first use for drugs and those who reported ever using marijuana. The section and

question numbers associated with these criteria are B36, B37, B38, B39, B40, B41, B42, B43, B44, B45, and B46. (The prevalence rates for ever using over the counter medications different from the directions and ever using prescription medication not prescribed for the student are not provided since these questions are not asked in the survey).

Section III: Construct Figures

A committee of State planners participated in an interactive process to identify key youth development related constructs that provide a summary of the data collected within nine framework domains. Twenty-six constructs and accompanying measures (questions derived from the IYS) were identified during the 2010 IYS. In 2012, eight of these constructs were eliminated due to component questions either being eliminated or changed significantly, or only containing one question and thus presenting the same information as data tables. This change also eliminated one framework domain.

The data for selected questions are combined and presented in 18 figures on pages 129 through 146. Data in the construct figures represents students from the county. Results are reported with the green shaded portion of the bar (on the left) representing the percent of respondents who responded favorably to all of the questions involved in computing a particular construct. The red shaded portion of the bar (on the right) represents the percent of respondents who responded unfavorably to at least one question associated with that construct. Some bars with equal percentages will not appear to be the same length because the bars represent exact percents and the percentage shown is rounded to the nearest integer. Due to rounding, percentages may not add up to exactly 100%. A list of questions and responses associated with each construct follow the construct figure. Unless noted, all response options for questions in each construct were the same.

Records containing missing response data for any question that is part of a construct were not included in the tabulation for that particular construct. A listing of the framework domains, constructs, and associated questions is presented in Table 1 found on the following page.

Table 1. Questions Included in Each Construct

IOWA YOUTH DEVELOPMENT RESULTS FRAMEWORK DOMAINS AND CONSTRUCTS	ASSOCIATED QUESTIONS
SECURE AND SUPPORTIVE FAMILY	
Positive Family Relationships	F2, F4, F5, F6
Family Involvement and Support	F7, F8, F9, F10, F11, F12
Parental/Guardian Boundaries	E33, F1
SAFE AND SUPPORTIVE SCHOOL CLIMATE	
School Expectations/Boundaries	E29, E30, E31, E32, E51
Safe (Nonviolent) School Environment	E4, E6
School Staff/Student Support	E39, E40, E41, E45, E50, E52
Positive Student Norms	D5, D6, D7, D9, D10, E37
Social Pressure to Use Substances Limited	D1, D2, D3, D4
SAFE AND SUPPORTIVE COMMUNITY	
Youth Access to Substances Limited	G1, G2, G3, G4, G5, G6
Safe Neighborhood	G18, G19
Supportive Neighborhood	G20, G21, G22, G24, G25, G26
HEALTHY YOUTH — AVOIDANCE OF RISKY BEHAVIOR	
Violent/Aggressive Behavior Avoidance	E1, E5, E7, E8, E9, E10, E11
SOCIALLY COMPETENT YOUTH	
Empathy	C1, C2, C3
Self-Confidence	E23, E24, E25, E26
Acceptance of Diversity	C4, C5
Positive Values	C8, E20, E21, E22
YOUTH SUCCESSFUL IN SCHOOL	
Commitment to School/Learning	E47, E48, E49, E53
BULLYING	
Bullying	E12, E13, E14, E15, E16, E17, E18, E19

Recommendations

Based on analysis of the 2012 Iowa Youth Survey data, the Iowa Consortium for Substance Abuse Research and Evaluation respectfully offers the following recommendations for future Iowa Youth Surveys:

- Review and possibly add or revise the Iowa Youth Survey questions to better meet the needs of the Iowa Department of Public Health and other participating entities. Consider how revisions would affect trend reporting.

- Review logic checks for groups of related questions. Focus on groups with conflicts equal to or greater than 1% to determine possible causes and effects on the data.

- Review and evaluate constructs to ensure validity. Examine changes in questions and/or question wording through the years for relevance and intended use as they relate to constructs. Consider how revisions would affect trend reporting. Consider replicating the process originally used to create constructs to ensure process is still sound.

- When conducting the IYS online, information obtained from the census system is extremely useful and important for data cleaning and analysis. Review how and what data will be collected by the online data collection system to ensure necessary data are also collected through the census system so that all needed data are available for the data cleaning process.

- Continue to encourage every public school district and non-public school to participate in future surveys. If possible, provide some sort of incentive such as was offered prior to 2010 that would encourage more districts to participate in future surveys. Communicate benefits of participation and continue to streamline the process to make it as easy as possible for school district personnel and students. Seek input from non-public school representatives on how to effectively increase participation for this population of students.

Additional Information

To obtain more detail regarding Iowa Youth Survey procedures or for answers to general questions, please visit: www.iowayouthsurvey.iowa.gov. For additional information, use the "Contact Us" link found in the upper right corner of this page. While resources are limited, every effort will be made to promptly respond to requests.

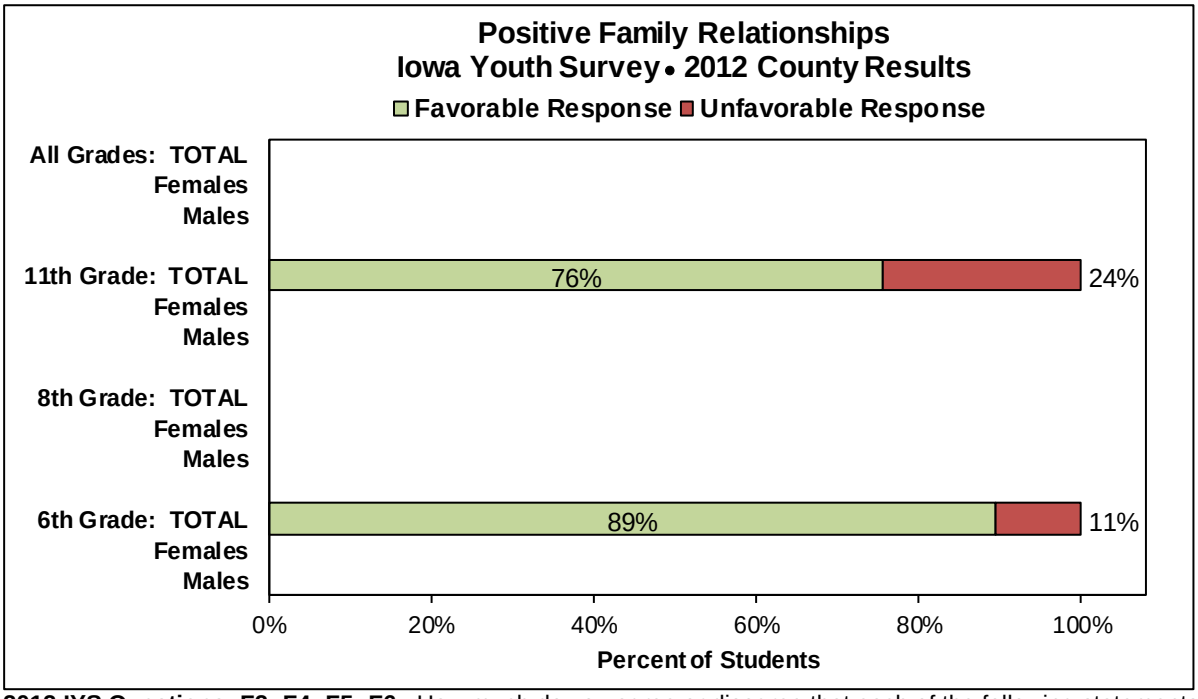
Section III. Construct Figures

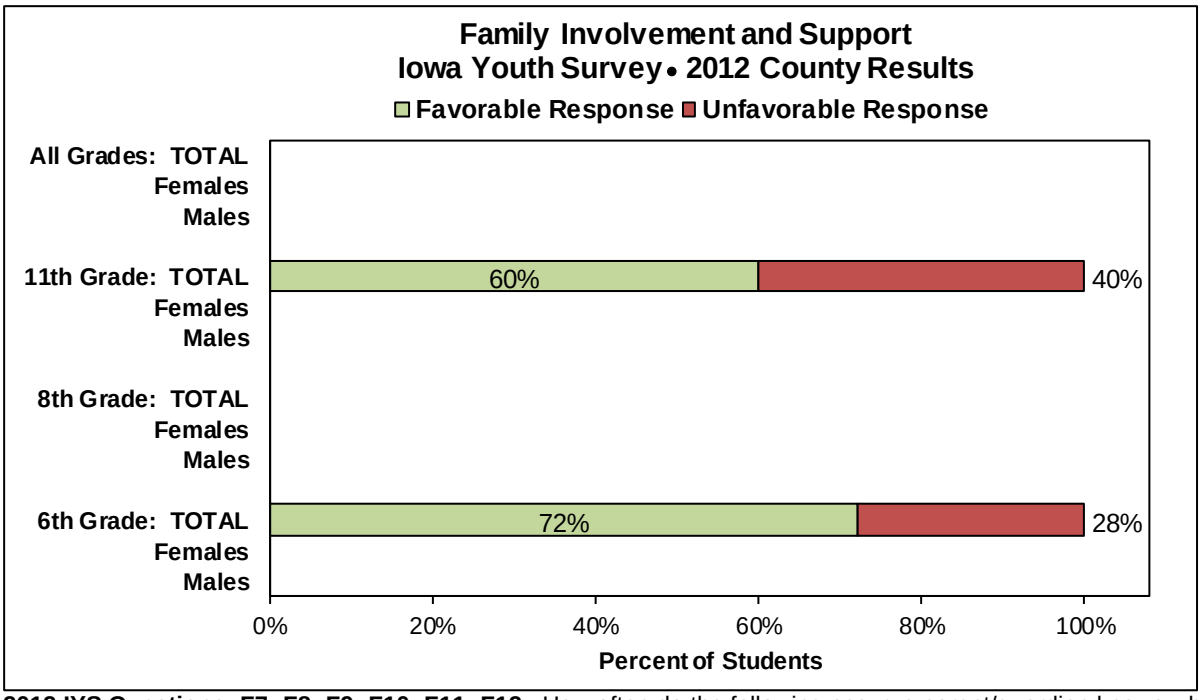
SECURE AND SUPPORTIVE FAMILY



2012 IYS Questions: F2; F4; F5; F6. How much do you agree or disagree that each of the following statements is true: I have a happy home; I feel very close to at least one of my parents/guardians; I can talk about the things that bother me or I don't understand with someone in my home; I can get help and support when I need it from someone in my home? **Responses:** "Strongly agree" or "agree" are coded as favorable and "strongly disagree" or "disagree" are coded as unfavorable.

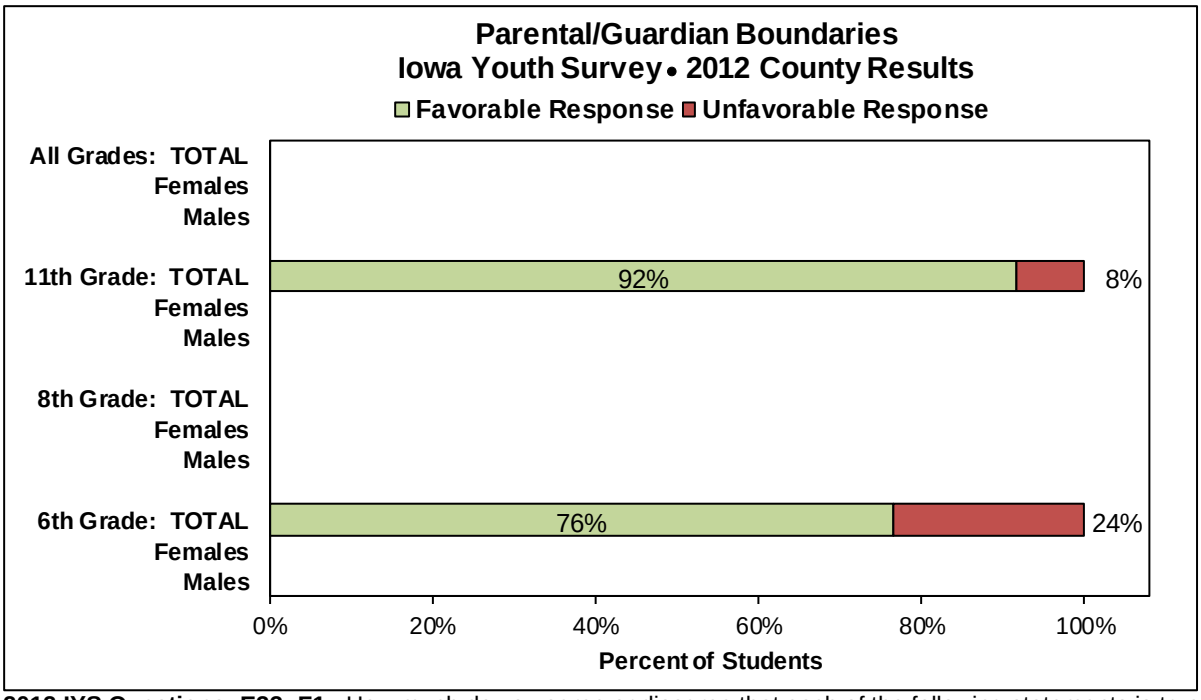
Note: The green portion of the bars represent the percent of respondents who responded favorably to all questions used to compute this construct; the red portion represents the percent of respondents who responded unfavorably to at least one question included in this construct.

When 15 or fewer students answered a question utilized in a construct, or if 10% or fewer students did not respond in the *least* sensitive manner, construct bars will not be present.



2012 IYS Questions: F7; F8; F9; F10; F11; F12. How often do the following occur: a parent/guardian knows where I am and who I am with, especially in the evening and on weekends; a parent/guardian checks to make sure I have done the things I am supposed to do (school, homework, household chores, get home on time, etc.); a parent/guardian generally finds out if I have done something wrong, and then punishes me; when I am doing a good job, someone in my home lets me know about it; someone in my home helps me with my schoolwork; at least one of my parents/guardians goes to school activities that I am involved in? **Responses:** "Always," "often," or "sometimes" are coded as favorable and "never" is coded as unfavorable.
Note: The green portion of the bars represent the percent of respondents who responded favorably to all questions used to compute this construct; the red portion represents the percent of respondents who responded unfavorably to at least one question included in this construct.

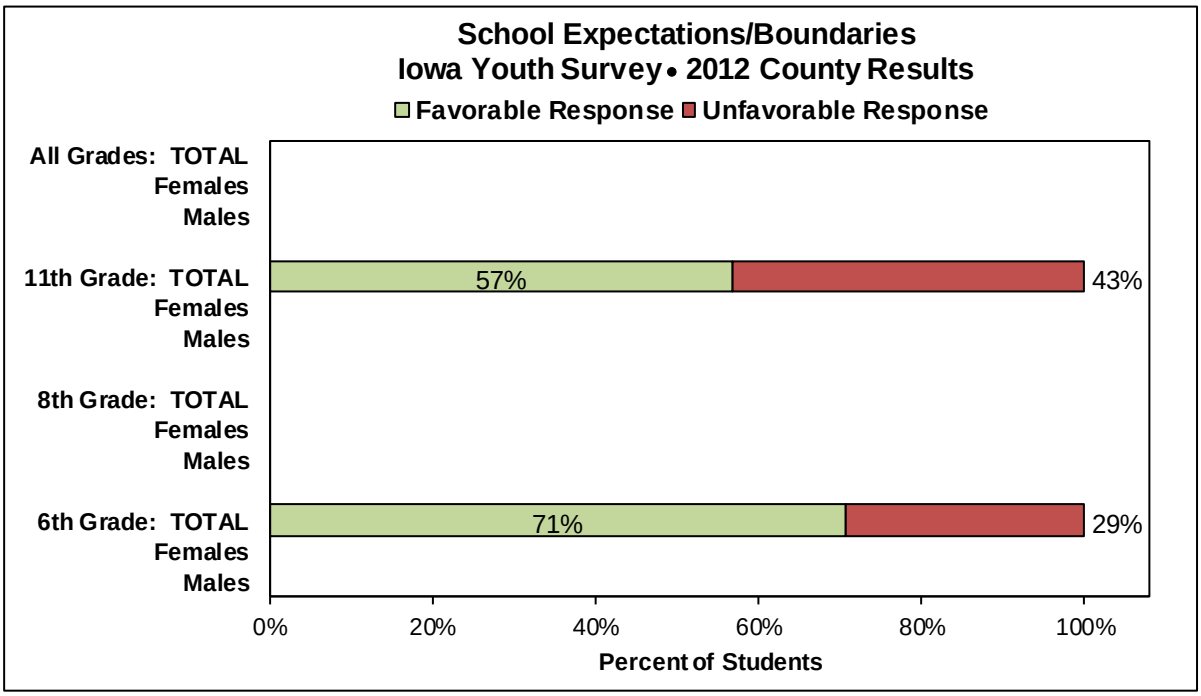
When 15 or fewer students answered a question utilized in a construct, or if 10% or fewer students did not respond in the *least* sensitive manner, construct bars will not be present.



2012 IYS Questions: E33; F1. How much do you agree or disagree that each of the following statements is true: In my school, if I got in trouble at school for breaking a rule, at least one of my parents/guardians would support the school's disciplinary action; in my home there are clear rules about what I can and cannot do? **Responses:** "Strongly agree" or "agree" are coded as favorable and "strongly disagree" or "disagree" are coded as unfavorable.
Note: The green portion of the bars represent the percent of respondents who responded favorably to all questions used to compute this construct; the red portion represents the percent of respondents who responded unfavorably to at least one question included in this construct.

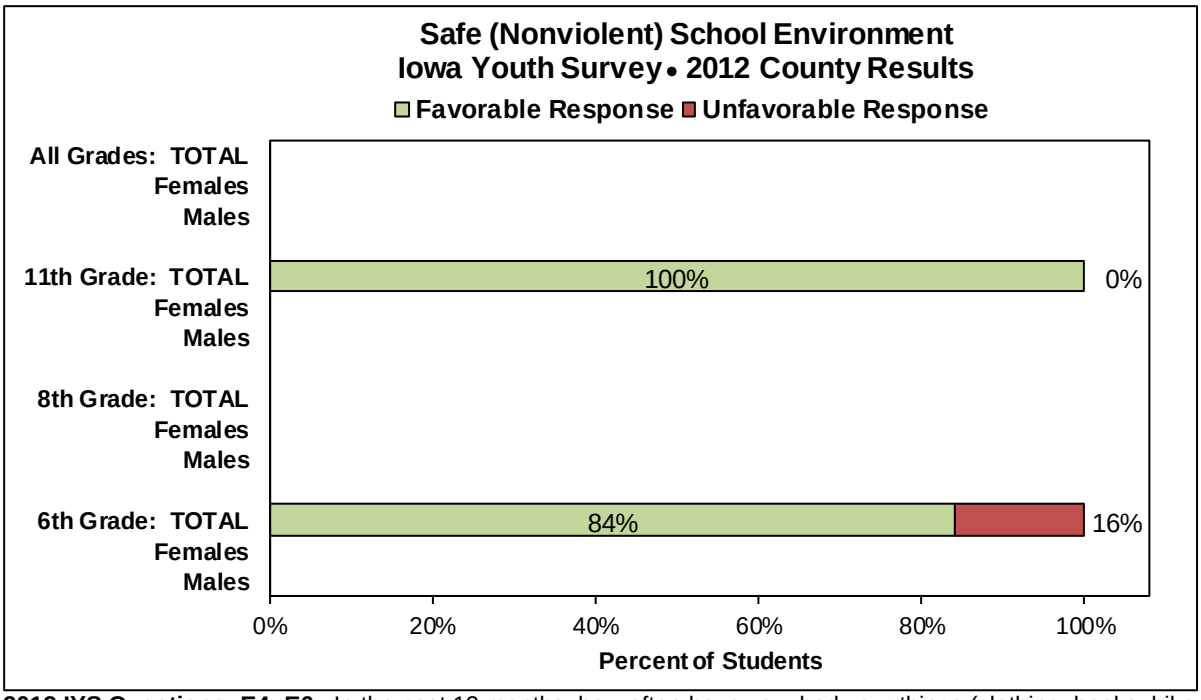
When 15 or fewer students answered a question utilized in a construct, or if 10% or fewer students did not respond in the *least* sensitive manner, construct bars will not be present.

SAFE AND SUPPORTIVE SCHOOL CLIMATE



2012 IYS Questions: E29; E30; E31; E32; E51. How much do you agree or disagree that each of the following statements is true: In my school there are clear rules about what students can and cannot do; in my school the school principal and teachers consistently enforce school rules; in my school if I skipped school at least one of my parents/guardians would be notified; in my school students caught drinking, smoking, or using an illegal drug are not allowed to participate in any extracurricular activity for some time period; my school lets a parent/guardian know if I've done something wrong? **Responses:** "Strongly agree" or "agree" are coded as favorable and "strongly disagree" or "disagree" are coded as unfavorable.
Note: The green portion of the bars represent the percent of respondents who responded favorably to all questions used to compute this construct; the red portion represents the percent of respondents who responded unfavorably to at least one question included in this construct.

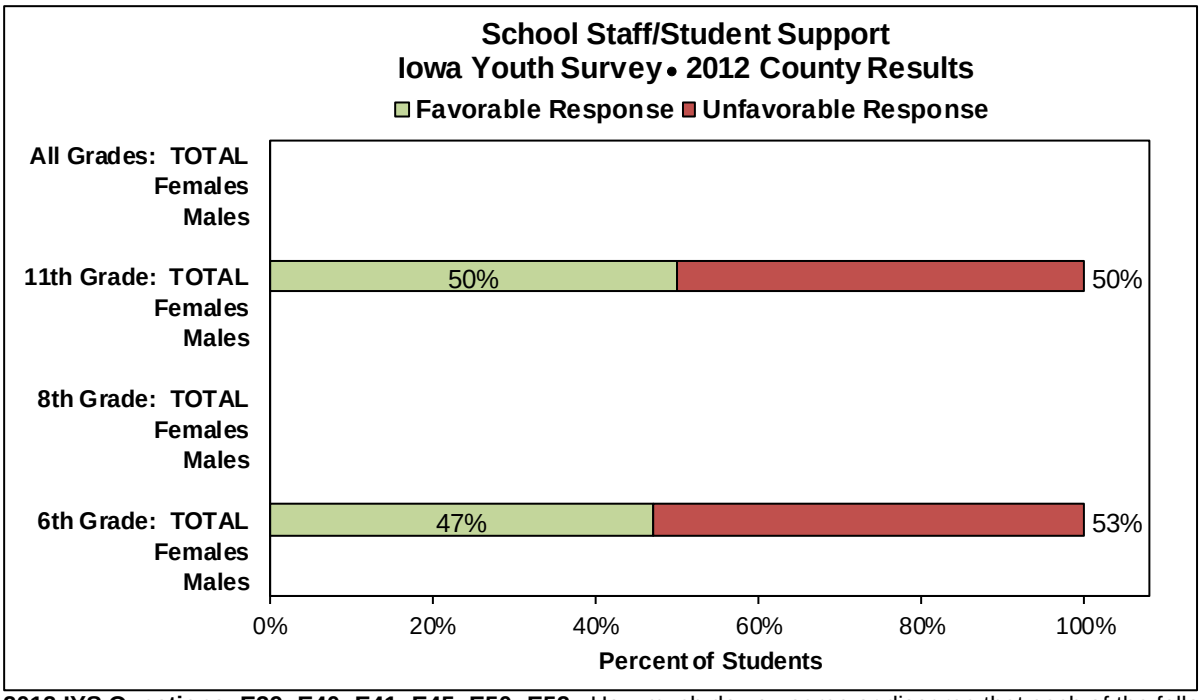
When 15 or fewer students answered a question utilized in a construct, or if 10% or fewer students did not respond in the *least* sensitive manner, construct bars will not be present.



2012 IYS Questions: E4; E6. In the past 12 months, how often have you: had your things (clothing, books, bike, car) stolen or deliberately damaged on school property; been threatened or injured by someone with a weapon (like a gun, knife, or club) on school property? **Responses:** "None" or "1 or 2 times" are coded as favorable and "3-5 times" or "6 or more times" are coded as unfavorable.

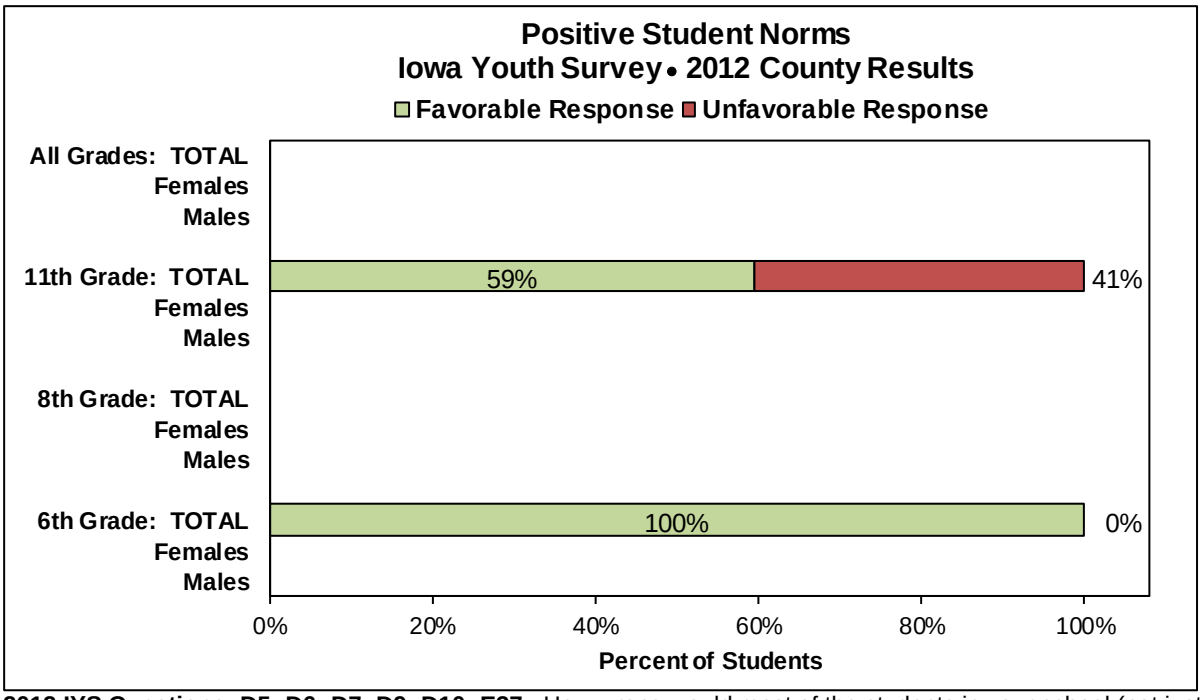
Note: The green portion of the bars represent the percent of respondents who responded favorably to all questions used to compute this construct; the red portion represents the percent of respondents who responded unfavorably to at least one question included in this construct.

When 15 or fewer students answered a question utilized in a construct, or if 10% or fewer students did not respond in the *least* sensitive manner, construct bars will not be present.



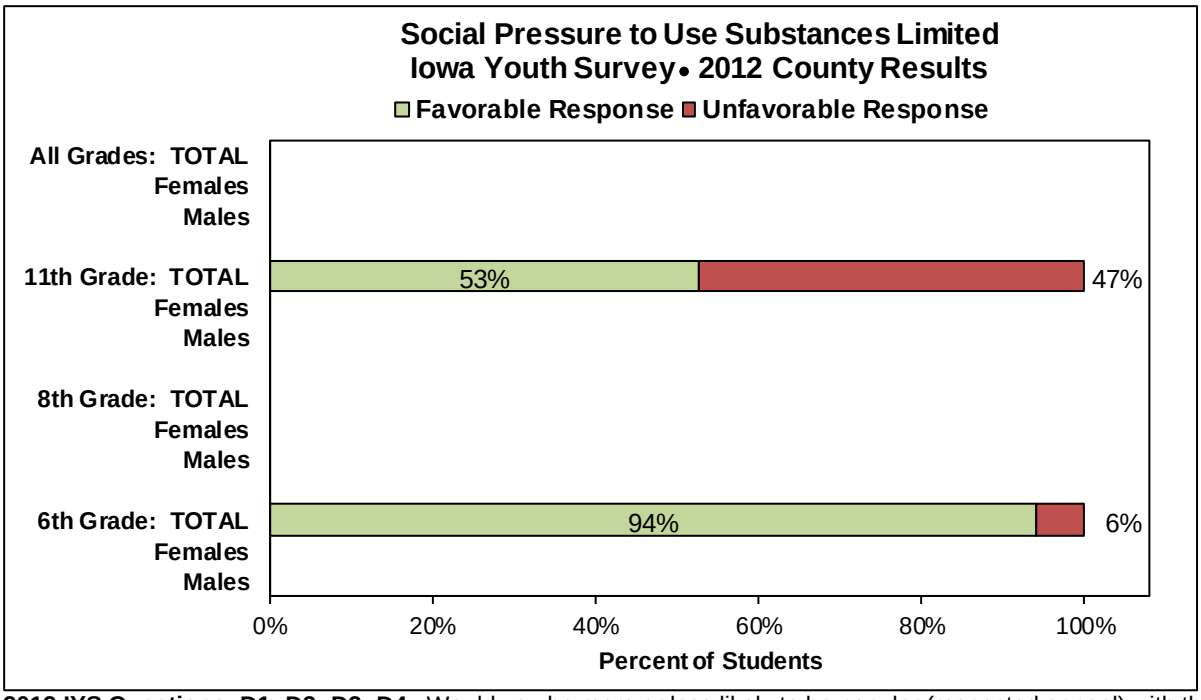
2012 IYS Questions: E39; E40; E41; E45; E50; E52. How much do you agree or disagree that each of the following statements is true: my teachers care about me; my teachers are available to talk with students one-on-one; my teachers notice when I am doing a good job and let me know about it; students in my school treat each other with respect; my school lets a parent/guardian know if I'm doing a good job; there is at least one adult at school that I could go to for help with a problem? **Responses:** "Strongly agree" or "agree" are coded as favorable and "strongly disagree" or "disagree" are coded as unfavorable.
Note: The green portion of the bars represent the percent of respondents who responded favorably to all questions used to compute this construct; the red portion represents the percent of respondents who responded unfavorably to at least one question included in this construct.

When 15 or fewer students answered a question utilized in a construct, or if 10% or fewer students did not respond in the *least* sensitive manner, construct bars will not be present.



2012 IYS Questions: D5; D6; D7; D9; D10; E37. How wrong would most of the students in your school (not just your best friends) feel it would be to: drink beer, wine, or hard liquor (for example vodka, whiskey, gin); smoke cigarettes; smoke marijuana; start a physical fight with someone; go to a party where kids under 21 were using alcohol; go to a party where kids were using drugs? **Responses:** "Very wrong," "wrong," "a little wrong," or "don't know" are coded as favorable and "not wrong at all" are coded as unfavorable.
Note: The green portion of the bars represent the percent of respondents who responded favorably to all questions used to compute this construct; the red portion represents the percent of respondents who responded unfavorably to at least one question included in this construct.

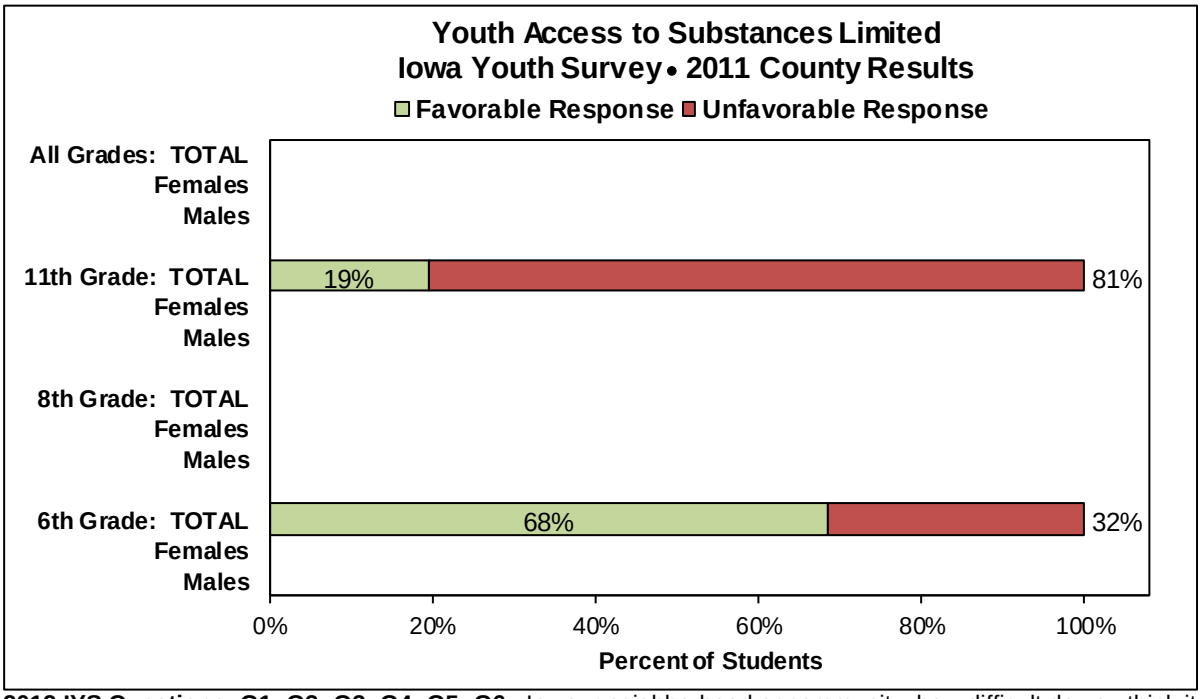
When 15 or fewer students answered a question utilized in a construct, or if 10% or fewer students did not respond in the *least* sensitive manner, construct bars will not be present.



2012 IYS Questions: D1; D2; D3; D4. Would you be more or less likely to be popular (respected or cool) with the other students in your school if you: smoked cigarettes; drank alcoholic beverages; smoked marijuana; used any other illegal drug? **Responses:** "Less popular," "a lot less popular," or "wouldn't change my popularity" are coded as favorable and "a lot more popular" or "more popular" are coded as unfavorable.
Note: The green portion of the bars represent the percent of respondents who responded favorably to all questions used to compute this construct; the red portion represents the percent of respondents who responded unfavorably to at least one question included in this construct.

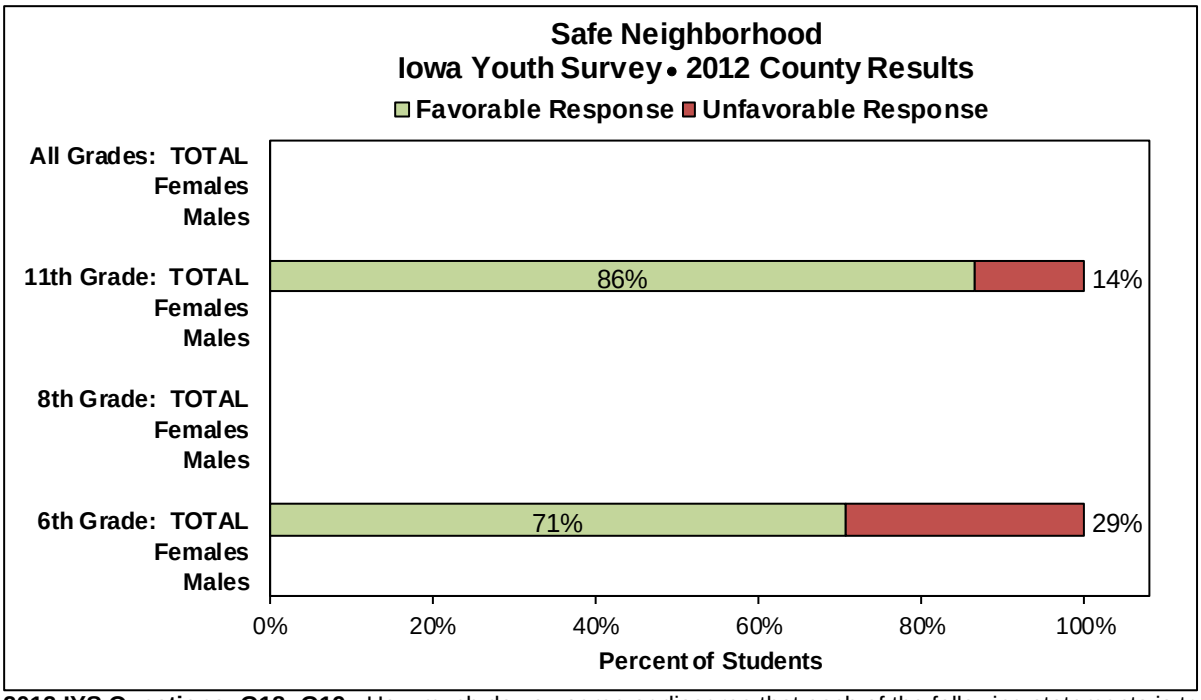
When 15 or fewer students answered a question utilized in a construct, or if 10% or fewer students did not respond in the *least* sensitive manner, construct bars will not be present.

SAFE AND SUPPORTIVE COMMUNITY



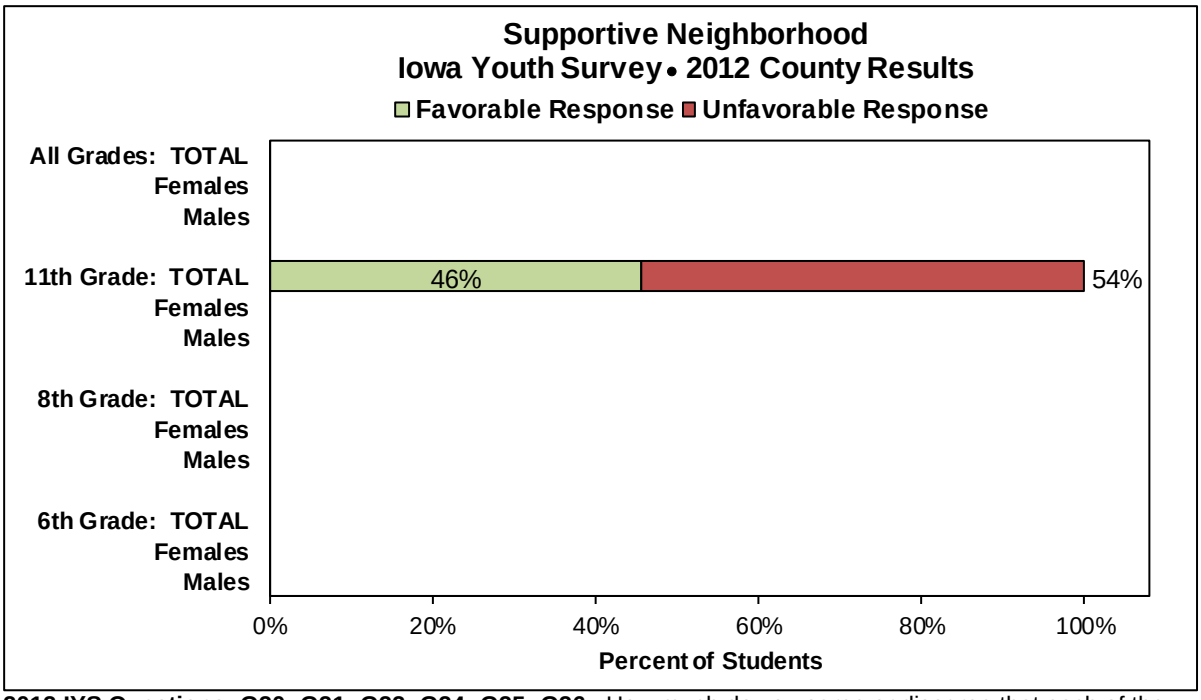
2012 IYS Questions: G1; G2; G3; G4; G5; G6. In your neighborhood or community, how difficult do you think it would be for a kid your age to get each of the following: cigarettes; alcoholic beverages (beer, wine or liquor); marijuana (pot, grass, hash, bud, weed); methamphetamines (crank, ice); amphetamines other than methamphetamines (like stimulants, uppers, speed); any other illegal drug (cocaine, etc.)? **Responses:** "Very hard," "hard," or "don't know" are coded as favorable and "easy" or "very easy" are coded as unfavorable.
Note: The green portion of the bars represent the percent of respondents who responded favorably to all questions used to compute this construct; the red portion represents the percent of respondents who responded unfavorably to at least one question included in this construct.

When 15 or fewer students answered a question utilized in a construct, or if 10% or fewer students did not respond in the *least* sensitive manner, construct bars will not be present.



2012 IYS Questions: G18; G19. How much do you agree or disagree that each of the following statements is true: my neighborhood is a safe place to live; in my neighborhood there are lots of fights, crime, or illegal drugs?
Responses: G18 - "strongly agree" or "agree" are coded as favorable and" strongly disagree" or "disagree" are coded as unfavorable. **G19** - "strongly disagree" or "disagree" are coded as favorable and "strongly agree" or "agree" are coded as unfavorable.
Note: The green portion of the bars represent the percent of respondents who responded favorably to all questions used to compute this construct; the red portion represents the percent of respondents who responded unfavorably to at least one question included in this construct.

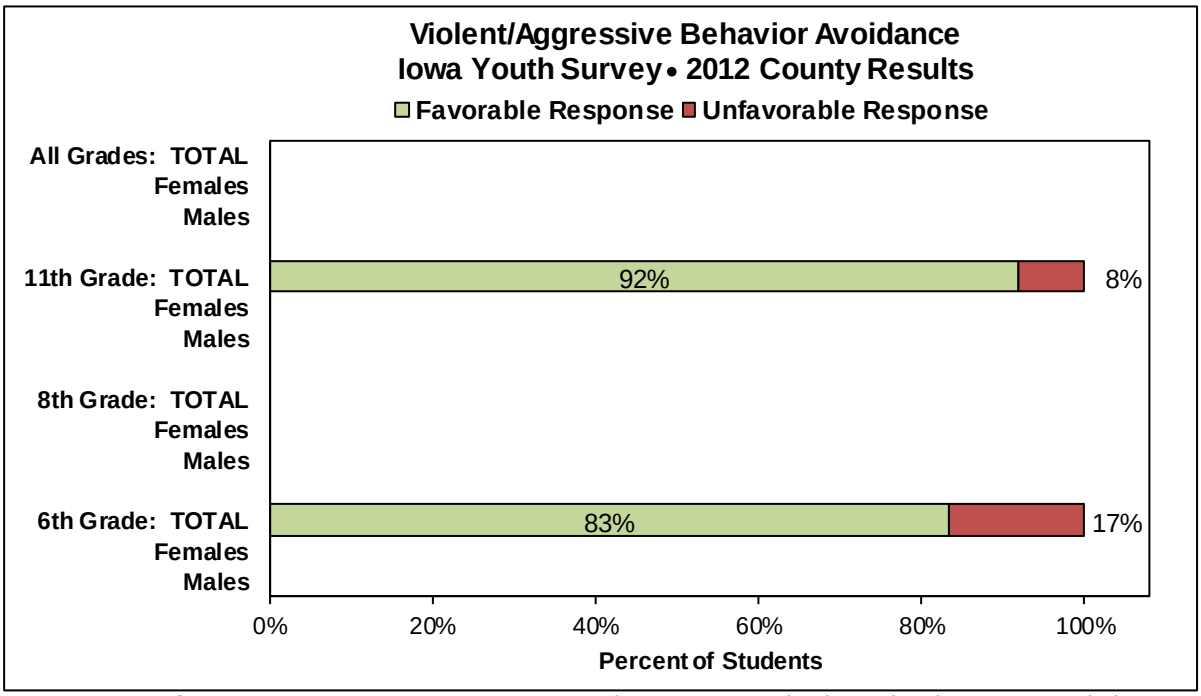
When 15 or fewer students answered a question utilized in a construct, or if 10% or fewer students did not respond in the *least* sensitive manner, construct bars will not be present.



2012 IYS Questions: G20; G21; G22; G24; G25; G26. How much do you agree or disagree that each of the following statements is true: if someone in my neighborhood or community saw me do something wrong, they would tell one of my parents (or adults who live with me); adults in my community care about people my age; my neighbors get along well with each other; adults in my neighborhood or community let me know they are proud of me when I do something well; adults in my neighborhood or community help me when I need help; adults in my neighborhood or community spend time talking with me? **Responses:** "Strongly agree" or "agree" are coded as favorable and "strongly disagree" or "disagree" are coded as unfavorable.
Note: The green portion of the bars represent the percent of respondents who responded favorably to all questions used to compute this construct; the red portion represents the percent of respondents who responded unfavorably to at least one question included in this construct.

When 15 or fewer students answered a question utilized in a construct, or if 10% or fewer students did not respond in the *least* sensitive manner, construct bars will not be present.

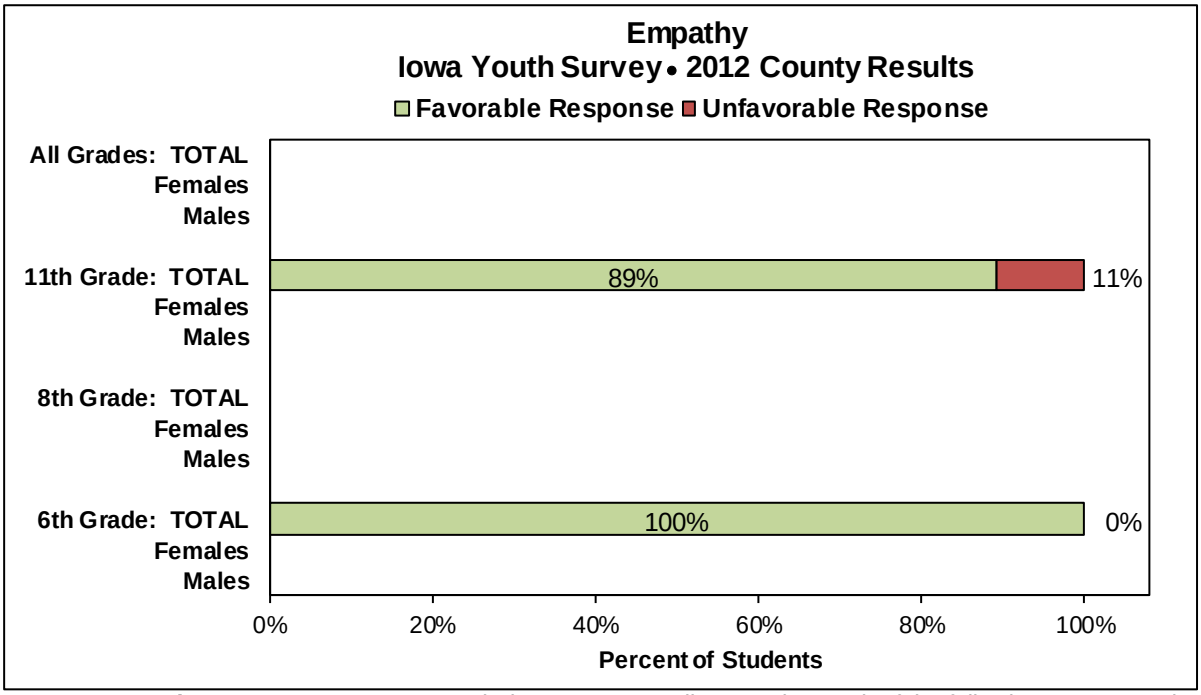
HEALTHY YOUTH – AVOIDANCE OF RISKY BEHAVIOR



2012 IYS Questions: E1; E5; E7; E8; E9; E10; E11. In the past 12 months, how often have you: carried a gun, knife, club, or other weapon to school; been disciplined at school for fighting, theft, or damaging property; damaged property just for fun (like breaking windows, scratching a car, etc.); beaten up on or fought someone because they made you angry; used a weapon, force, or threats to get money or things from someone; verbally threatened to physically harm someone; stolen something? **Responses: E1 and E9** – "None" is coded as favorable and "1 or 2 times," "3-5 times," or "6 or more times" are coded as unfavorable. **E5, E7, E8, E9, E11** – "None" or "1 or 2 times" are coded as favorable and "3-5 times" or "6 or more times" are coded as unfavorable.
Note: The green portion of the bars represent the percent of respondents who responded favorably to all questions used to compute this construct; the red portion represents the percent of respondents who responded unfavorably to at least one question included in this construct.

When 15 or fewer students answered a question utilized in a construct, or if 10% or fewer students did not respond in the *least* sensitive manner, construct bars will not be present.

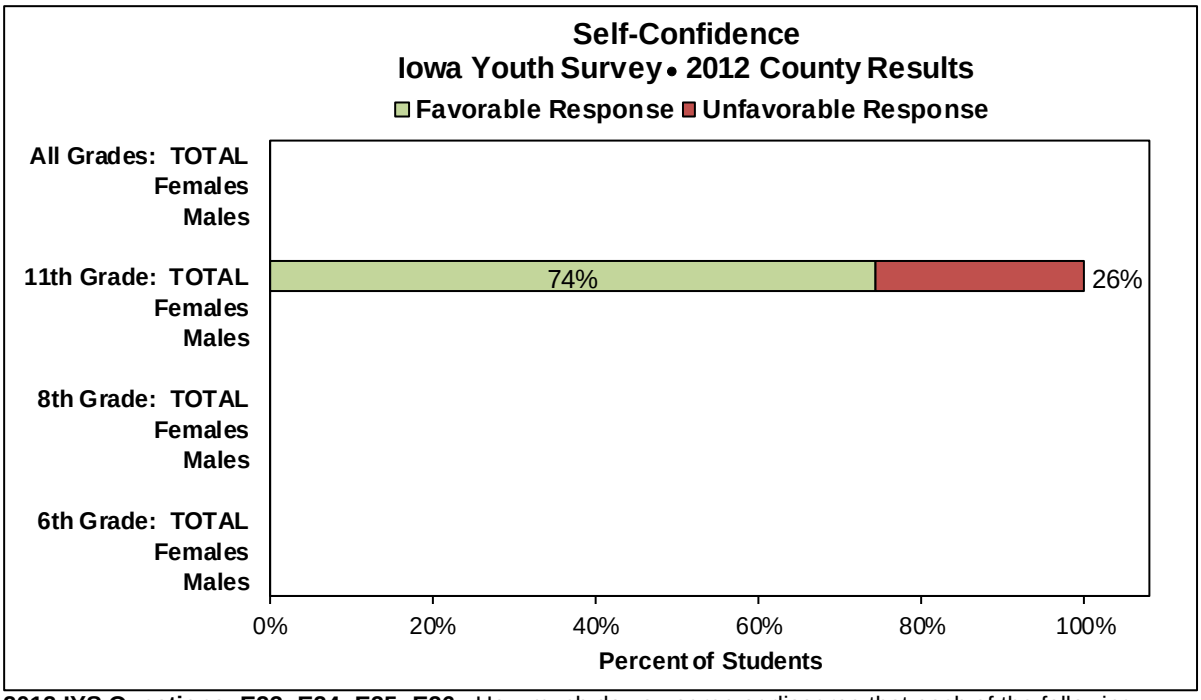
SOCIALLY COMPETENT YOUTH



2012 IYS Questions: C1; C2; C3. How much do you agree or disagree that each of the following statements is true: it is important to help other people; I care about other people's feelings; I feel sorry for people who have things stolen or damaged? **Responses:** "Strongly agree" or "agree" are coded as favorable and "strongly disagree" or "disagree" are coded as unfavorable.

Note: The green portion of the bars represent the percent of respondents who responded favorably to all questions used to compute this construct; the red portion represents the percent of respondents who responded unfavorably to at least one question included in this construct.

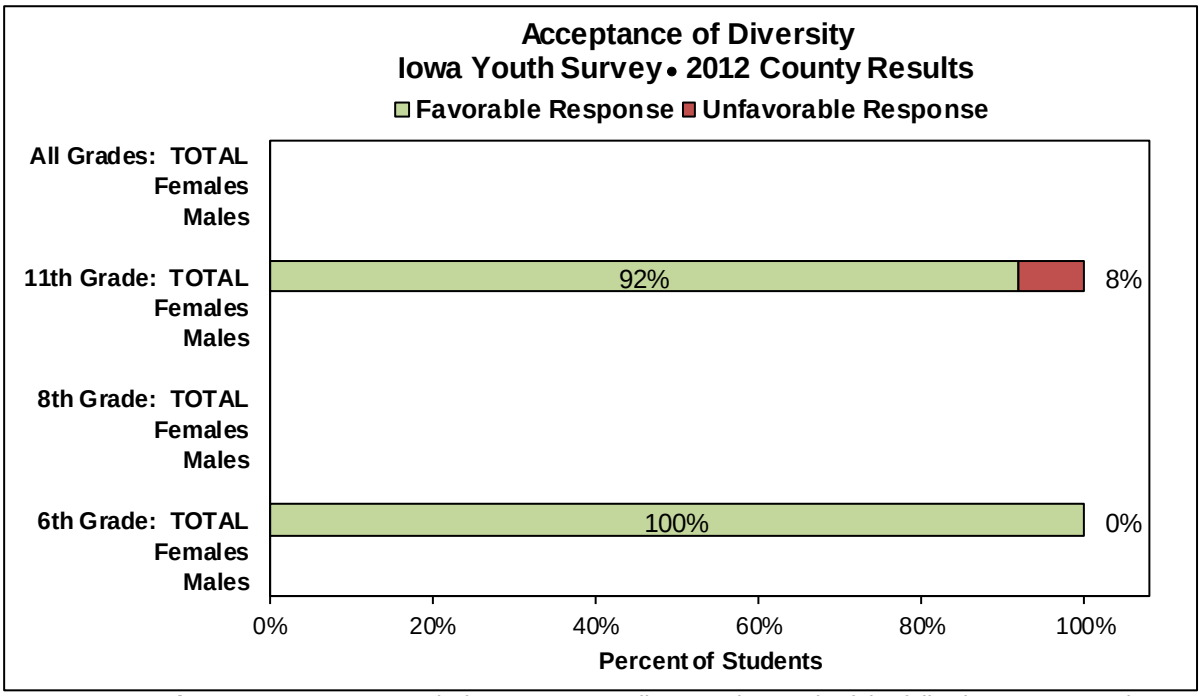
When 15 or fewer students answered a question utilized in a construct, or if 10% or fewer students did not respond in the *least* sensitive manner, construct bars will not be present.



2012 IYS Questions: E23; E24; E25; E26. How much do you agree or disagree that each of the following statements is true: I accept responsibility for my actions when I make a mistake or get into trouble; I am good at making friends; when I have problems, I am good at finding ways to fix them; I think things through carefully before I make a decision? **Responses:** "Strongly agree" or "agree" are coded as favorable and "strongly disagree" or "disagree" are coded as unfavorable.

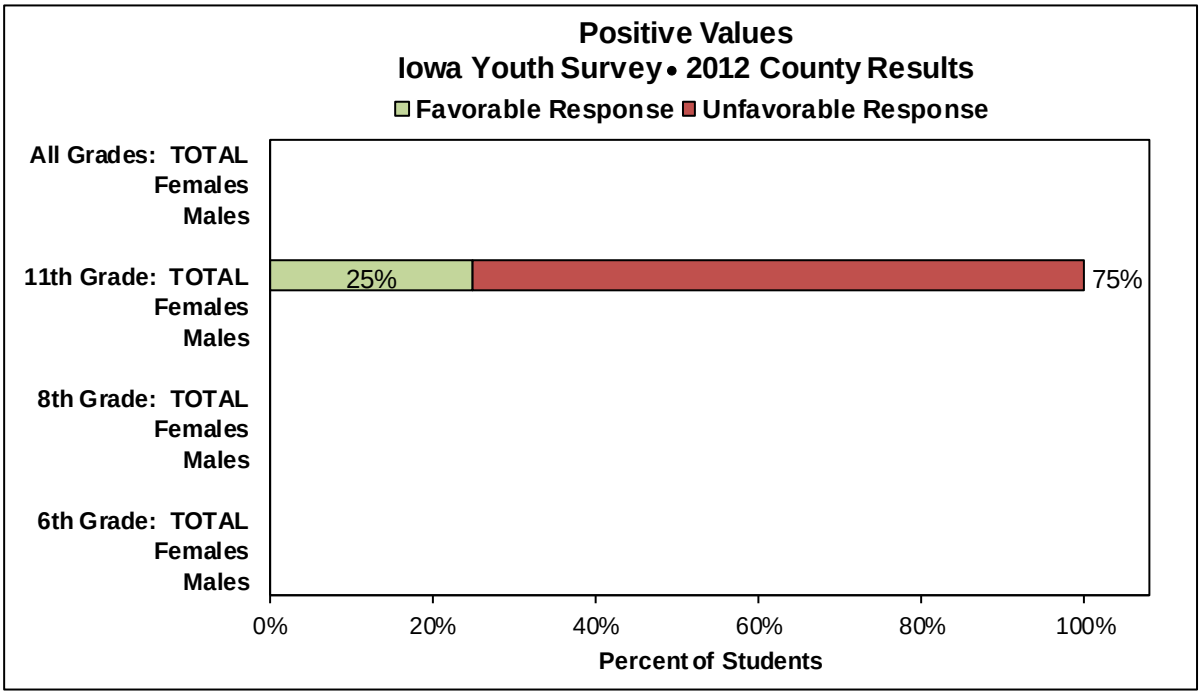
Note: The green portion of the bars represent the percent of respondents who responded favorably to all questions used to compute this construct; the red portion represents the percent of respondents who responded unfavorably to at least one question included in this construct.

When 15 or fewer students answered a question utilized in a construct, or if 10% or fewer students did not respond in the *least* sensitive manner, construct bars will not be present.



2012 IYS Questions: C4; C5. How much do you agree or disagree that each of the following statements is true: I am accepting of those different than myself (racially, culturally, socio-economically); it is wrong to discriminate against someone because of her/his race, appearance, culture, religion, etc.? **Responses:** "Strongly agree" or "agree" are coded as favorable and "strongly disagree" or "disagree" are coded as unfavorable.
Note: The green portion of the bars represent the percent of respondents who responded favorably to all questions used to compute this construct; the red portion represents the percent of respondents who responded unfavorably to at least one question included in this construct.

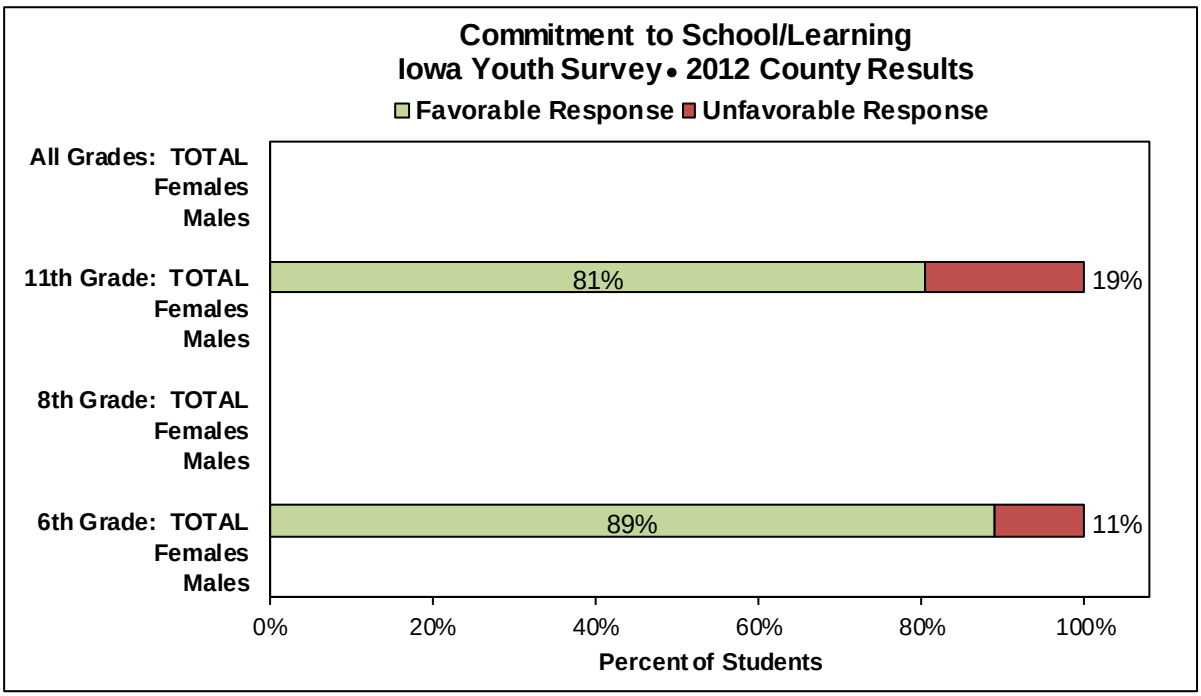
When 15 or fewer students answered a question utilized in a construct, or if 10% or fewer students did not respond in the *least* sensitive manner, construct bars will not be present.



2012 IYS Questions: C8; E20; E21; E22. How much do you agree or disagree that each of the following statements is true: violence is the worst way to solve problems; it is against my values to have sex as a teenager; it is important to tell the truth; it is against my values to use alcohol and drugs as a teenager? **Responses:** "Strongly agree" or "agree" are coded as favorable and "strongly disagree" or "disagree" are coded as unfavorable.
Note: The green portion of the bars represent the percent of respondents who responded favorably to all questions used to compute this construct; the red portion represents the percent of respondents who responded unfavorably to at least one question included in this construct.

When 15 or fewer students answered a question utilized in a construct, or if 10% or fewer students did not respond in the *least* sensitive manner, construct bars will not be present.

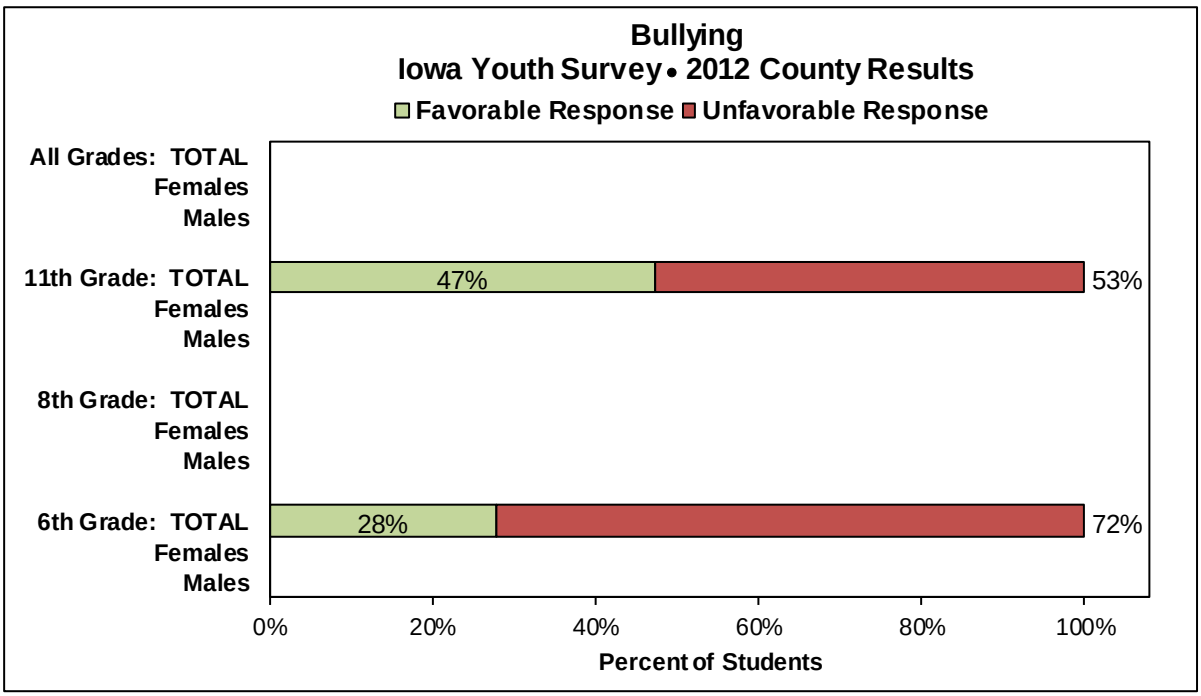
YOUTH SUCCESSFUL IN SCHOOL



2012 IYS Questions: E47; E48; E49; E53. How much do you agree or disagree that each of the following statements is true: I care about my school; I try to do my best in school; I plan to finish high school; I do the homework that is assigned?
Responses: "Strongly agree" or "agree" are coded as favorable and "strongly disagree" or "disagree" are coded as unfavorable.
Note: The green portion of the bars represent the percent of respondents who responded favorably to all questions used to compute this construct; the red portion represents the percent of respondents who responded unfavorably to at least one question included in this construct.

When 15 or fewer students answered a question utilized in a construct, or if 10% or fewer students did not respond in the *least* sensitive manner, construct bars will not be present.

BULLYING



2012 IYS Questions: E12; E13; E14; E15; E16; E17; E18; E19. In the last 30 days, how many times have you been bullied at school in the ways listed: I was called names, was made fun of, or teased in a hurtful way; other students left me out of things on purpose, excluded me from their group of friends, or completely ignored me; I was hit, kicked, pushed, shoved around, or locked indoors; other students told lies, spread false rumors about me, and tried to make others dislike me; I was made fun of because of my race or color; I was made fun of because of my religion; other students made sexual jokes, comments, or gestures that hurt my feelings; I have received a threatening or hurtful message from another student in an email, on a website, on a cell phone, from pager text messaging, in an internet chat room, or in instant messaging.
Responses: "0 times" is coded as favorable and any response indicating one or more times of being bullied is coded as unfavorable.
Note: The green portion of the bars represent the percent of respondents who responded favorably to all questions used to compute this construct; the red portion represents the percent of respondents who responded unfavorably to at least one question included in this construct.

When 15 or fewer students answered a question utilized in a construct, or if 10% or fewer students did not respond in the *least* sensitive manner, construct bars will not be present.

Appendix I. Participating Public School Districts and Non-Public Schools

The public school districts and non-public schools identified by students residing in this county are provided below.

AGWSR Community School District
Cedar Falls Community School District
Charles City Community School District
Hampton-Dumont Community School District
Nashua-Plainfield Community School District
Rudd-Rockford-Marble Rk Community School District
Waverly-Shell Rock Community School District
St. Pauls Lutheran School
