Acknowledgments

There were many individuals and organizations involved in this collaborative effort to collect youth development data from Iowa's 6th, 8th, and 11th grade students. Everyone who participated made a valuable contribution to the 2010 Iowa Youth Survey (IYS) reports.

We wish to thank all the district superintendents, principals, teachers, counselors, facilitators, parents, and students for their incredible effort. For students enrolled in grades 6, 8, or 11, survey participation decreased from 83.5% in 2008 to 68.1% in 2010. The decrease from 2008 to 2010 was largely due to the changes in funding mechanisms that reduced the incentive for school districts to participate in the IYS. Conducting the Iowa Youth Survey is a learning experience, and the knowledge gained provides the opportunity to be even more successful in subsequent years. Your comments and suggestions continue to be essential.

Thank you to all who contributed to the collection and analyses of the 2010 Iowa Youth Survey data.

Overview

In September through December of 2010, the Iowa Department of Public Health (IDPH) collaborated with schools in Iowa to conduct the 2010 Iowa Youth Survey (IYS). The 2010 IYS is the thirteenth in a series of surveys that have been completed every two or three years since 1975. The survey is conducted with students in grades 6, 8, and 11 attending Iowa public and private schools. The IYS includes questions about students' behaviors, attitudes, and beliefs, as well as their perceptions of peer, family, school, neighborhood, and community environments.

Background

Prior to 1999, surveys were given to a sample of students in 6th, 8th, 10th, and 12th grades from approximately one-third of Iowa's public school districts. In 1999, IYS participation was sought from *all* students in grades 6, 8, and 11 attending public schools, as well as from students aged 14 to 18 years in alternative programs. This change made it possible to provide youth development data for each participating school district and each county in which participating students reside. The change also made it more feasible to use IYS results to aid in assessing outcomes of community and school youth development programs. It is important to note that the 1999 change in the grade level restricts direct comparisons with survey data collected prior to 1999, except for grades 6 and 8, in the specific schools that participated in the survey.

Beginning in 2002, IYS participation was also sought from all non-public schools. This change was made to more accurately reflect the attitudes and perceptions of all Iowa students in grades 6, 8, and 11, not just those attending public schools. Data collected from students attending non-public schools are included in the 2002 and later reports.

In 2008, a change in the method used to conduct the survey took place. All 2008 Iowa Youth Surveys were conducted via the internet and completed by students online through an electronic survey tool (SurveyMonkey) administered by Iowa Department of Administrative Services in conjunction with Iowa Department of Public Health. To ensure a smooth transition for this new procedure, an online pilot test took place in 2007 involving nine school districts. Prior to implementation of the 2008 IYS, training for school district personnel was held via the Iowa Communications Network (ICN) to provide instruction for online IYS administration.

Also in 2008, the decision was made to change the IYS completion schedule from every three years to every two years. Iowa Youth Surveys will be completed in even-numbered years, beginning with 2010.

In 2010, school district changes in funding mechanisms reduced the incentive for school districts to participate in the IYS. Due to these changes, fewer school districts initially signed up to participate. To try to increase the number of participating districts, IDPH re-opened the IYS to accommodate additional districts, changing the close of the IYS data collection period from October to December. Approximately 7.5% of the total number of records were collected during the later time period. Analysis shows that data from the districts that completed the IYS in the second administration period tended to be significantly different than data collected during the traditional IYS collection period, although only by a few percentage points. This difference could be because of the different collection periods. Alternative reasons include but are not limited to differences in participants' age between the collection periods, differences in the districts that participated later, or geographic distribution across the state.

Objectives

The 2010 Iowa Youth Survey State of Iowa report is designed to help state-level planners, community agencies, and school personnel identify youth development needs, implement relevant, targeted interventions, and assess outcomes. IYS data can assist in providing a better understanding of students in Iowa and their needs. It can also help to assess the strengths and challenges of schools, families, and communities from the young person's perspective. In addition, IYS data help the state obtain funding for a wide variety of programs and services. The Iowa Youth Survey has proven to be a valuable resource in youth needs assessment, program development, implementation, and outcome evaluation.

Iowa Youth Survey reports can also help Iowa's schools, area education agencies, and counties assess their relative strengths and weaknesses. In addition to the Iowa Department of Public Health Substance Abuse Prevention Service Area reports, population-specific IYS reports are publicly available. For more information, please check the IYS website: www.iowayouthsurvey.org for the availability of State, County, Area Education Agency (AEA), Judicial District, and Trend reports. The total percentages provided in these additional reports, as well as the breakdowns by grade level and gender, can be compared with the respective State of Iowa report percentages to view similarities and differences by region or population.

2010 Iowa Youth Survey

Profile of Participation

The 2010 Iowa Youth Survey was conducted September 27, 2010 through December 17, 2010. A total of 78,382 validated records were received from students across the state. Data in this report assume each record represents one student. Validated records were received from 76,409 students attending public school districts, and 1,973 students attending non-public schools and a Board of Regent institution. Records were identified from 307 of Iowa's 359 public school districts (86%), and from 31 of the 183 non-public schools (17%), including one Board of Regent institution, for students enrolled in grades 6, 8, or 11. These records may represent additional districts (e.g., when districts whole grade share, when multiple districts reported the same district number, when districts shared their unique SurveyMonkey URLs, etc.). The 78,382 validated records received from students completing the IYS represented all 99 counties in Iowa. Nearly all Iowa counties were represented by a minimum of 200 students each. Of these, 3,287 validated records were received from students residing in a county in this prevention service area. Data in this report assume each record represents one student. A list of counties included in this prevention service area and a list of public school districts and non-public schools that students identified attending is provided in Appendix I on page 166.

Survey Content

The 2010 Iowa Youth Survey contains 220 questions and is divided into seven sections (A-G).

- Section A. Demographic Characteristics (11 questions)
- Section B. Things I Have Tried or Done and Things That Have Happened To Me (105 questions)
- Section C. My Beliefs and Attitudes (27 questions)
- Section D. Peer Questions (4 questions)
- Section E. School Questions (27 questions)
- Section F. Family Questions (20 questions)
- Section G. Community Questions (26 questions)

A committee of youth development professionals was designated by IDPH to review and make recommendations regarding the 2010 survey questions. The selection of specific survey

questions was based on analysis of question and response data collected in previous Iowa Youth Surveys. The general content of the questions included in the 2010 IYS is similar to that of previous surveys. Approximately half of the questions and response options from the 2008 IYS were used with little or no modification; twenty-six questions from the 2008 IYS were eliminated, thirty-five questions from the 2008 IYS were significantly changed, and forty-nine new questions were added. New questions added to the 2010 IYS include questions to elicit additional, more detailed information on suicide, access to alcohol, access to marijuana, and prescription drug abuse.

The appropriateness of any comparison between the 2010 IYS to surveys from previous years must be considered on a question by question basis. It is important to note that in some cases, the question numbers have changed from year to year. The question wording, response options, and time frames may also have changed (for example, the question regarding exercise changed from, "On how many of the past seven days did you exercise or do physical activity for a total of 60 minutes," in 2008, to, "On how many of the past 7 days were you physically active for a total of 60 minutes or more per day," in 2010). Trend analyses should be considered exploratory at best. If comparisons are made, 2010 IYS results may *appear* to be significantly different, for better or worse, from the results generated by previous surveys. However, this appearance may be due to differences in question wording and the representativeness of the sample rather than actual changes in Iowa's youth.

Data

Data Cleaning

A total of 80,734 IYS records were received. Following the data cleaning process, 2,367 records were removed, leaving a total of 78,382 validated Iowa Youth Survey records. Data cleaning included cross-referencing and matching uniquely assigned collector IDs (a unique ID assigned to each school district) with the school district and building code as entered by the students. Date and time checks were employed, and information obtained from census forms provided by school districts following survey administration was also reviewed to assist in data cleaning. Analysis was also performed to identify records with no responses recorded in Sections B through G (i.e., the non-demographic content of the survey). Since it was possible for a student to simply refuse to answer any question by leaving it blank, not all of the records with missing responses were removed. In records where the grade variable (question A4) was also missing, records with no responses in Sections B through G were removed since they did not affect the response percentages or the weighting process. Additionally, records with grade level indicated as "ungraded" or "other" with no responses in Sections B through G were also removed, since this did not affect the weighting procedure. As a result, 1,137 records with all responses in Sections B through G missing were removed. The IYS data were also compared with Department of Education enrollment figures and as a result of census information obtained from school districts, 1,215 additional records were identified as invalid and removed. One data check used previously proved to be futile for the 2010 IYS: the internet protocol (IP) addresses included in the data file were neither clear nor uniform across all records. These IP addresses were virtually unusable for data cleaning purposes in 2010. It is important to note that no mechanism was in place through the online survey service provider to identify whether more than one record was submitted by the same student (duplicate records); therefore, it was not possible to identify potential duplicates in the data analysis.

Logic checks (data evaluated for conflicting, inconsistent, or illogical responses) were performed on the 2010 data. For each of the logic checks, groups of responses to multiple questions were compared. For example, responses to question B16 (During the past 30 days, on the days you smoked, how many cigarettes did you smoke per day?) were compared to the responses to

question B28 (In the past 30 days, on how many days have you smoked cigarettes?). Five groups of questions showed marginally conflicting, inconsistent, or illogical responses greater than 1%. Upon review of all logic checks, it was determined that many of the records may have shown conflicting responses due to the wording of the questions and/or response options, or student misinterpretation. When responses to a group of questions conflict, it is not possible to determine which answer accurately reflects the student's experience. No records were removed or changed as a result of the logic checks, however, possible causes of conflict should be considered when evaluating questions for future Iowa Youth Surveys.

Weighting

Proportions of enrolled 6th, 8th, and 11th grade students completing the IYS varied and these differences presented a potential for bias. Therefore, all percentages in the data sections are weighted. Since 11th graders may be more likely to use substances than 6th or 8th graders, any significant discrepancy between the proportion of 11th grade students and the other grades who took part in the 2010 IYS would produce a distorted total estimate (i.e., different proportions of students in different grades taking the survey could produce an artificially high or low total substance use estimate). A statistical weighting procedure reduces this potential bias and allows utilization of all validated data.

There is no current database that provides the number of students enrolled in grades 6, 8, and 11 residing in counties or prevention service areas in Iowa. As in 2008, data in the 2010 IDPH Substance Abuse Prevention Service Area reports are weighted utilizing the county level weights assigned to counties located in each area. This weighting procedure was used to approximate the number of students enrolled in grades 6, 8, and 11 residing in counties and prevention service areas in Iowa and is based only on the public school districts and non-public school districts that participated in the 2010 IYS. The Iowa Department of Education 2010-2011 Basic Educational Data Survey (BEDS) enrollment data, which provides enrollment numbers by district and county, was utilized to estimate the number of 6th, 8th, and 11th grade students enrolled in the participating school districts and non-public schools in the county. Within each grade, the proportion of students enrolled was divided by the proportion of students actually completing the IYS residing in each county. Students who completed the IYS but did not report a grade of 6, 8, or 11 were assigned a weight of 1.

Data Interpretation

Since every school district did not collect data from every student, and home schooled students may not have been surveyed, there is the possibility that the students who completed the 2010 IYS are not representative of all students in Iowa. Additionally, IYS data do not represent youth who may have dropped out of school. It is unknown what biases non-participating youth might introduce into the IYS report percentages. The 2010 Iowa Youth Survey, as in previous years, is self-reported data and relies on each student's ability to read and honestly respond to each question. Since the 2010 IYS was conducted online, a student's ability to complete the survey is also dependent on possessing basic computer skills. Self-reported behaviors, attitudes, and beliefs are always subject to error (unintentional, such as mistakenly selecting the wrong response or intentional, such as denial or boasting), and it is not possible to identify records where this occurs. Additionally, some surveys contained missing data indicating that not all students answered every question. There are many potential reasons for missing data and why a student may choose not to answer a particular question, including comprehension level (understanding survey language); confidentiality concerns; refusal to provide an answer resulting from lack of interest or motivation; beliefs and attitudes about the subject of the question; or inadvertently skipping a question. In general, the higher the proportion of students participating, the more likely the survey results are representative and without bias. When comparing data from population-specific IYS reports to the state report, the higher the

percentage of students that answered the question, the more likely it is that the comparisons with the state report percentages are unbiased.

The IDPH Substance Abuse Prevention Service Area reports may be subject to sampling error. The more school districts and non-public schools that participated in the IYS, the more likely the reported percentages are accurate estimates of the student's attitudes and behaviors that reside in the prevention service area. The absence of a majority of students completing the survey in any prevention service area has the potential to produce significant bias, as we do not know if the youth who did not take the survey would have provided similar responses as the youth who did participate. Additionally, students may reside in one county and attend school in a neighboring county, located in a different prevention service area. Therefore, some responses may reflect conditions perceived in a school located in a neighboring prevention service area and not necessarily perceptions relating to the school(s) located in the prevention service area in which the student resides. The weighting procedure for 2010 IDPH Substance Abuse Prevention Service Area reports is based only on the number of students in *participating* school districts and non-public schools that are assigned to that county within the BEDS enrollment data. It is important to note that the weighted state figures provided as comparison are based on the proportion of all students in Iowa enrolled in each grade. All of these considerations, along with unique county characteristics, should be taken into consideration when comparing prevention service area results to state results.

Confidentiality

Since IDPH Substance Abuse Prevention Service Area IYS reports present data from fewer students than the State of Iowa report, several steps were taken to protect confidentiality. While there is no way for an individual student to be connected with his or her particular responses, there are circumstances in which all or nearly all students may be connected to a particular behavior or attitude. This may increase the likelihood of someone making inferences about individual students from the data. For example, if all 11th graders in a prevention service area reported that they used alcohol, essentially every 11th grade student can be identified as using alcohol. Therefore, certain questions and accompanying responses, such as past thirty day use of alcohol, were identified as sensitive. For this subset of questions, any time 10% or fewer of the students do not respond in the *least* sensitive manner, the response data for that question will not be reported. Instead, an asterisk (*) will appear in place of the percent. For example, if 90% or more of the students responded that they used alcohol in the past 30 days, data in the column will be replaced with the asterisk symbol to aid in protecting confidentiality. Additionally, when the total number of students responding to a question is small, it may be easier to make an assumption about how a particular student or group of students might have responded. Therefore, any time 15 or fewer students responded to a particular question, the asterisk symbol will appear in all response cells in that column. Similarly, in the construct figures, bars for that population will not be present.

Data Presentation

Section I: Data Tables

Data provided in the data tables include the responses to questions that appear in the 2010 Iowa Youth Survey. The weighted prevention service area data are presented in the first portion of the table for each question, followed by weighted state data for the same question. Two-hundred sixteen of the 220 IYS questions are represented and are presented on pages 11 through 136 (the first three questions regarding county number, school district number, and building number are not included in the data table section, nor is the grade identification question that preceded the questions asking about suicide). The questions and responses provided in this report are written verbatim as they appear in the 2010 survey. Each table

contains 13 columns. All percentages are rounded; “0%” appearing in any column represents anything less than 0.5% (including 0 or none). Due to rounding, percentages may not add up to exactly 100%.

The first row of the data tables describes the type of IYS report (i.e., prevention service area results on the left and state results on the right). The second row provides the question followed by the 2010 IYS section and question number. Below the question number in the first column are rows containing all possible response options provided on the IYS for that particular question. All percentages in the response rows are based on the number of students who answered that question; missing responses are not included in the calculation. The final row in the table provides the total percentage of all students in that column who responded to the particular question. A low percentage in the last row indicates that some students did not answer that question. In general, the higher the percentage responding, the more likely the responses are representative of students in Iowa. Data tables on pages 35 through 50 (for variables B26, B28 – B41) had an additional row added for the 2010 IYS. This row is a summary of all response options indicating any substance use.

The second through fourth columns below the IYS question titled “6th Grade,” are percentages based on all of the students in the prevention service area who answered the question and reported that they were in grade 6. The “TOTAL” column combines all responses (including missing responses for gender), and is followed by data separated for male and female respondents.

Columns five through seven, titled “8th Grade,” provide the data described as above for students reporting they were in grade 8. Columns eight through ten, titled “11th Grade,” present the same data for students reporting they were in grade 11.

Columns eleven through thirteen, titled “All Grades,” include the percentage of all students who reported each of the responses. The results in this column include all of the students in the previous nine columns, as well as students who did not choose grade 6, 8, or 11 when asked to select their grade in school.

Columns fourteen through twenty-five provide the same information as columns two through thirteen for all students in Iowa who answered the question.

Section II: Alcohol, Tobacco, and Other Drug Use Tables

The prevalence of alcohol, tobacco, and other drug (ATOD) use is presented in three tables on pages 137 through 139. Data in the tables include students who indicated current use (use during the past 30 days) as well as students who indicated ever using. All results in the ATOD tables indicate the percentage of records (or students) indicating use; any indication of use for any of the questions associated with that particular substance were coded as use. In accordance with computations in previous IYS reports, if all other responses in the record indicated no use, responses containing missing data were also coded as no use. Also consistent with previous IYS reports, if all responses are missing, the record is considered to indicate no use. Analysis was performed on missing data patterns to validate that it is reasonable to assume missing data were consistent with no use. Therefore, students who left a question blank are included in the denominator used to calculate the percentage of students who reported use. The criteria for substance use, ever and current, for alcohol, tobacco, and other drugs are defined below. Consistent with the data tables, data are provided for students in the prevention service area, followed by data presented for all records received from the State of Iowa.

Alcohol Use

- **Alcohol Use: Current**
Includes students who reported having at least one drink (glass, bottle, or can of beer; glass of wine, liquor, or mixed drink) in the past 30 days, or reported having five or more drinks on at least one day in the last 30 days. The section and question numbers from the 2010 IYS associated with these criteria are B26 and B30.
- **Alcohol Use: Ever**
Includes students who reported an age when they started drinking; reported drinking five or more drinks on at least one day in the last 30 days; or had at least one drink in the past 30 days. The section and question numbers associated with these criteria are B20, B26, and B30.

Tobacco Use

- **Tobacco Use: Current**
Includes students who reported having used a tobacco product in the past 30 days: cigarettes, cigars, or smokeless tobacco. This includes those who reported that they smoked at least part of a cigarette in the past 30 days; smoked cigarettes or cigars on one or more days in the past 30 days; or used smokeless tobacco in the last 30 days. The respective IYS section and question numbers are B16, B28, B29, and B39.
- **Tobacco Use: Ever**
Includes students who reported any of the following: that they smoked at least part of a cigarette in the past 30 days; that they had ever tried to quit smoking cigarettes; indicated an age when they started smoking cigarettes; indicated one or more days of smoking cigarettes or cigars in the past 30 days; or reported using smokeless tobacco in the last 30 days. The IYS section and question numbers associated with these criteria are B16, B18, B28, B29, and B39.
- **Cigarette Use: Current**
Includes students who reported they smoked at least part of one cigarette in the past 30 days, or reported one or more days of smoking cigarettes in the last 30 days. The respective IYS section and question numbers are B16 and B28.
- **Cigarette Use: Ever**
Includes students who reported that they smoked at least part of one cigarette in the past 30 days; that they had ever tried to quit smoking cigarettes; reported an age when they started smoking cigarettes; or reported one or more days of smoking cigarettes in the past 30 days. The associated IYS section and question numbers are B16, B18, and B28.
- **Cigar Use: Current**
Includes students who reported one or more days of smoking cigars in the past 30 days. The IYS section and question number associated with this criterion is B29. The prevalence rate for ever using cigars is not provided since this question is not asked in the survey.
- **Smokeless Tobacco Use: Current**
Includes students who reported using smokeless tobacco in the last 30 days. The associated IYS section and question number is B39.

- **Smokeless Tobacco Use: Ever**
Includes students who reported that they had ever used smokeless tobacco. The associated IYS section and question number is B19 and B39.

Drug Use

- **Drug Use: Current**
Includes students who reported use of a drug (amphetamines, cocaine, inhalants, marijuana, methamphetamines, or other illegal drug); use of prescription medications not prescribed for the student; use of over the counter medications different from the directions; or use of steroid pills or shots without a doctor's prescription in the past 30 days. The section and question numbers associated with these criteria are B31, B32, B33, B34, B35, B36, B38, B40, and B41.
- **Drug Use: Ever**
Includes students who reported use of a drug (amphetamines, cocaine, inhalants, marijuana, methamphetamines, or other illegal drug), or use of steroid pills or shots without a doctor's prescription in the past 30 days. Also included are students who reported an age of first use for drugs. The section and question numbers associated with these criteria are B21, B22, B23, B24, B25, B31, B32, B33, B34, B35, B36, B38, B40, and B41. (The prevalence rates for ever using over the counter medications different from the directions and ever using prescription medication not prescribed for the student are not provided since these questions are not asked in the survey).

Section III: Construct Figures

A committee of State planners participated in an interactive process to identify key youth development related constructs that provide a summary of the data collected within nine framework domains. Thirty-four constructs and accompanying measures (questions derived from the IYS) were identified during previous IYS iterations. In 2010, eight of these constructs were eliminated due to component questions either being eliminated or changed significantly. This change also eliminated one framework domain.

The data for selected questions are combined and presented in 26 figures on pages 140 through 165. Data in the construct figures represent students from the prevention service area. Results are reported with the green shaded portion of the bar (on the left) representing the percent of respondents who responded favorably to all of the questions involved in computing a particular construct. The red shaded portion of the bar (on the right) represents the percent of respondents who responded unfavorably to at least one question associated with that construct. Some bars with equal percentages will not appear to be the same length because the bars represent exact percents and the percentage shown is rounded to the nearest integer. Due to rounding, percentages may not add up to exactly 100%. A list of questions and responses associated with each construct follows the construct figure. Unless noted, all response options for questions in each construct were the same. In accordance with computations in previous IYS reports, percentages in all except three of the construct figures are based on the number of students who answered the respective questions for each particular construct.

Records containing missing response data for any question were not included in the construct for 25 of the 26 constructs. As in previous reports, responses containing missing data for No Current (past 30 days) Alcohol Use were included in the favorable category if all other responses in the record were also coded as favorable. If all responses were missing for questions included in this construct, the record was also coded as favorable. Analyses performed on missing data patterns suggested that it is reasonable to assume missing data

were consistent with favorable responses. A listing of the framework domains, constructs, and associated questions is presented in Table 1 found below.

Table 2. Questions Included in Each Construct

IOWA YOUTH DEVELOPMENT RESULTS FRAMEWORK DOMAINS AND CONSTRUCTS	ASSOCIATED QUESTIONS
SECURE AND SUPPORTIVE FAMILY	
Positive Family Relationships	F2, F4, F5, F6
Family Involvement and Support	F7, F8, F9, F10, F11, F12
Parental/Guardian Boundaries	E5, F1
SAFE AND SUPPORTIVE SCHOOL CLIMATE	
School Expectations/Boundaries	E1, E2, E3, E4, E25
Safe (Nonviolent) School Environment	B90, B92
School Perceived to be Safe	E20
School Staff/Student Support	E16, E17, E18, E19, E24, E26
Positive Student Norms	E7, E8, E9, E11, E13, E14
Social Pressure to Use Substances Limited	D1, D2, D3, D4
SAFE AND SUPPORTIVE COMMUNITY	
Youth Access to Substances Limited	G1, G2, G3, G4, G5, G6
Safe Neighborhood	G18, G19
Supportive Neighborhood	G120 G21, G22, G24, G25, G26
Alcohol/Drug Free Places Available	G23
HEALTHY YOUTH — AVOIDANCE OF RISKY BEHAVIOR	
No Current (past 30 days) Alcohol Use	B26, B30
Substance Use Risk Awareness	C18, C19, C20, C21, C22, C23, C24
Violent/Aggressive Behavior Avoidance	B88, B91, B93, B94, B95, B96, B97
SOCIALLY COMPETENT YOUTH	
Empathy	C1, C2, C3
Self-Confidence	C12, C13, C14, C15
Self-Esteem	C7

Bullying	B98, B99, B100, B101, B102, B103, B104, B105
Do School Adults Stop Bullying?	E6

Recommendations

Based on analysis of the 2010 Iowa Youth Survey data, the Iowa Consortium for Substance Abuse Research and Evaluation respectfully offers the following recommendations for future Iowa Youth Surveys:

- Review and possibly add or revise the Iowa Youth Survey questions to better meet the needs of the Iowa Department of Public Health and other participating entities. Consider how revisions would affect trend reporting.
- Review logic checks for groups of related questions. Focus on groups with conflicts equal to or greater than 1% to determine possible causes and effects on the data.
- Review and evaluate constructs to ensure validity. Examine changes in questions and/or question wording through the years for relevance and intended use as they relate to constructs. Consider how revisions would affect trend reporting.
- Utilize skip questions in the survey to shorten the survey by allowing students to skip past specific questions if they answered an earlier question in the negative (e.g., if the student reported they had never consumed alcohol, then they skip the current alcohol use and current binge drinking questions, as well as the questions asking how they obtained the alcohol).
- Remove the “Ungraded” and “Other” response options from the grade question (A4). This question was asked again in 2010 as a filter question prior to the questions on suicide, but without these two response options.
- When conducting the IYS online, information obtained from the census system is extremely useful and important for data cleaning and analysis. Review how and what data will be collected by the online data collection system to ensure necessary data are also collected through the census system so that all needed data are available for the data cleaning process.
- Continue to encourage every public school district and non-public school to participate in future surveys. If possible, provide some sort of incentive such as was offered prior to 2010 that would encourage more districts to participate in future surveys. Communicate benefits of participation and continue to streamline the process to make it as easy as possible for school district personnel and students. Seek input from non-public school representatives on how to effectively increase participation for this population of students.
- Review and discuss weighting procedures for IYS reports.

Additional Information

To obtain more detail regarding Iowa Youth Survey procedures or for answers to general questions, please contact Linda McGinnis at: linda.mcginis@idph.iowa.gov. While resources are limited, every effort will be made to promptly respond to requests.

Section I. Data Tables

Iowa Youth Survey • 2010 Prevention Service Area Results												Iowa Youth Survey • 2010 State of Iowa Results											
Number of Validated 2010 Iowa Youth Survey Records																							
6th Grade			8th Grade			11th Grade			All Grades			6th Grade			8th Grade			11th Grade			All Grades		
TOTAL	M	F	TOTAL	M	F	TOTAL	M	F	TOTAL	M	F	TOTAL	M	F	TOTAL	M	F	TOTAL	M	F	TOTAL	M	F
1098	544	551	1137	588	545	998	487	506	3287	1646	1628	26856	13634	13120	27115	13801	13247	23657	11919	11685	78382	39759	38366

Note: The “Total” columns combine all responses, including missing responses for gender. Results in the “All Grades” columns include all students in the previous nine columns, as well as students who did not choose grade 6, 8, or 11.

Section III: Construct Figures

SECURE AND SUPPORTIVE FAMILY

2010 IYS Questions: F2; F4; F5; F6. How much do you agree or disagree that each of the following statements is true: I have a happy home; I feel very close to at least one of my parents/guardians; I can talk about the things that bother me or I don't understand with someone in my home; I can get help and support when I need it from someone in my home? **Responses:** "Strongly agree" or "agree" are coded as favorable and "strongly disagree" or "disagree" are coded as unfavorable.

Note: The green portion of the bars represents the percent of respondents who responded favorably to all questions used to compute this construct; the red portion represents the percent of respondents who responded unfavorably to at least one question included in this construct.

2010 IYS Questions: F7; F8; F9; F10; F11; F12. How often do the following occur: a parent/guardian knows where I am and who I am with, especially in the evening and on weekends; a parent/guardian checks to make sure I have done the things I am supposed to do (school homework, household chores, get home on time, etc.); a parent/guardian generally finds out if I have done something wrong, and then punishes me; when I am doing a good job, someone in my home lets me know about it; someone in my home helps me with my schoolwork; at least one of my parents/guardians goes to school activities that I am involved in? **Responses:** "Always," "often," or "sometimes" are coded as favorable and "never" is coded as unfavorable.

Note: The green portion of the bars represents the percent of respondents who responded favorably to all questions used to compute this construct; the red portion represents the percent of respondents who responded unfavorably to at least one question included in this construct.

2010 IYS Questions: E5; F1. How much do you agree or disagree that each of the following statements is true: In my school, if I got in trouble at school for breaking a rule, at least one of my parents/guardians would support the school's disciplinary action; in my home there are clear rules about what I can and cannot do? **Responses:** "Strongly agree" or "agree" are coded as favorable and "strongly disagree" or "disagree" are coded as unfavorable. **Note:** The green portion of the bars represents the percent of respondents who responded favorably to all questions used to compute this construct; the red portion represents the percent of respondents who responded unfavorably to at least one question included in this construct.

SAFE AND SUPPORTIVE SCHOOL CLIMATE

2010 IYS Questions: E1; E2; E3; E4; E25. How much do you agree or disagree that each of the following statements is true: In my school there are clear rules about what students can and cannot do; in my school the school principal and teachers consistently enforce school rules; in my school if I skipped school at least one of my parents/guardians would be notified; in my school students caught drinking, smoking, or using an illegal drug are not allowed to participate in any extracurricular activity for some time period; my school lets a parent/guardian know if I've done something wrong? **Responses:** "Strongly agree" or "agree" are coded as favorable and "strongly disagree" or "disagree" are coded as unfavorable.

Note: The green portion of the bars represents the percent of respondents who responded favorably to all questions used to compute this construct; the red portion represents the percent of respondents who responded unfavorably to at least one question included in this construct.

2010 IYS Questions: B90; B92. In the past 12 months, how often have you: had your things (clothing, books, bike, car) stolen or deliberately damaged on school property; been threatened or injured by someone with a weapon (like a gun, knife, or club) on school property? **Responses:** “None” or “1 or 2 times” are coded as favorable and “3-5 times” or “6 or more times” are coded as unfavorable.

Note: The green portion of the bars represents the percent of respondents who responded favorably to all questions used to compute this construct; the red portion represents the percent of respondents who responded unfavorably to at least one question included in this construct.

2010 IYS Question: E20. How much do you agree or disagree that the following statement is true: I feel safe at school? **Response:** “Strongly agree” or “agree” are coded as favorable and “strongly disagree” or “disagree” are coded as unfavorable.

Note: The green portion of the bars represents the percent of respondents who responded favorably to all questions used to compute this construct; the red portion represents the percent of respondents who responded unfavorably to at least one question included in this construct.

2010 IYS Questions: E16; E17; E18; E19; E24; E26. How much do you agree or disagree that each of the following statements is true: my teachers care about me; my teachers are available to talk with students one-on-one; my teachers notice when I am doing a good job and let me know about it; students in my school treat each other with respect; my school lets a parent/guardian know if I'm doing a good job; there is at least one adult at school that I could go to for help with a problem? **Responses:** "Strongly agree" or "agree" are coded as favorable and "strongly disagree" or "disagree" are coded as unfavorable.

Note: The green portion of the bars represents the percent of respondents who responded favorably to all questions used to compute this construct; the red portion represents the percent of respondents who responded unfavorably to at least one question included in this construct.

2010 IYS Questions: E7; E8; E9; E11; E13; E14. How wrong would most of the students in your school (not just your best friends) feel it would be to: drink beer, wine, or hard liquor (for example vodka, whiskey, gin); smoke cigarettes; smoke marijuana; start a physical fight with someone; go to a party where kids under 21 were using alcohol; go to a party where kids were using drugs? **Responses:** “Very wrong,” “wrong,” “a little wrong,” or “don’t know” are coded as favorable and “not wrong at all” are coded as unfavorable.

Note: The green portion of the bars represents the percent of respondents who responded favorably to all questions used to compute this construct; the red portion represents the percent of respondents who responded unfavorably to at least one question included in this construct.

2010 IYS Questions: D1; D2; D3; D4. Would you be more or less likely to be popular (respected or cool) with the other students in your school if you: smoked cigarettes; drank alcoholic beverages; smoked marijuana; used any other illegal drug? **Responses:** “Less popular,” “a lot less popular,” or “wouldn’t change my popularity” are coded as favorable and “a lot more popular” or “more popular” are coded as unfavorable.

Note: The green portion of the bars represents the percent of respondents who responded favorably to all questions used to compute this construct; the red portion represents the percent of respondents who responded unfavorably to at least one question included in this construct.

SAFE AND SUPPORTIVE COMMUNITY

2010 IYS Questions: G1; G2; G3; G4; G5; G6. In your neighborhood or community, how difficult do you think it would be for a kid your age to get each of the following: cigarettes; alcoholic beverages (beer, wine or liquor); marijuana (pot, grass, hash, bud, weed); methamphetamines (crank, ice); amphetamines other than methamphetamines (like stimulants, uppers, speed); any other illegal drug (cocaine, etc.)? **Responses:** “Very hard,” “hard,” or “don’t know” are coded as favorable and “easy” or “very easy” are coded as unfavorable.

Note: The green portion of the bars represents the percent of respondents who responded favorably to all questions used to compute this construct; the red portion represents the percent of respondents who responded unfavorably to at least one question included in this construct.

2010 IYS Questions: G18; G19. How much do you agree or disagree that each of the following statements is true: my neighborhood is a safe place to live; in my neighborhood there are lots of fights, crime, or illegal drugs?

Responses: G18 - “strongly agree” or “agree” are coded as favorable and “strongly disagree” or “disagree” are coded as unfavorable. **G19** - “strongly disagree” or “disagree” are coded as favorable and “strongly agree” or “agree” are coded as unfavorable.

Note: The green portion of the bars represents the percent of respondents who responded favorably to all questions used to compute this construct; the red portion represents the percent of respondents who responded unfavorably to at least one question included in this construct.

2010 IYS Questions: G20; G21; G22; G24; G25; G26. How much do you agree or disagree that each of the following statements is true: if someone in my neighborhood or community saw me do something wrong, they would tell one of my parents (or adults who live with me); adults in my community care about people my age; my neighbors get along well with each other; adults in my neighborhood or community let me know they are proud of me when I do something well; adults in my neighborhood or community help me when I need help; adults in my neighborhood or community spend time talking with me? **Responses:** "Strongly agree" or "agree" are coded as favorable and "strongly disagree" or "disagree" are coded as unfavorable.

Note: The green portion of the bars represents the percent of respondents who responded favorably to all questions used to compute this construct; the red portion represents the percent of respondents who responded unfavorably to at least one question included in this construct.

2010 IYS Question: G23. How much do you agree or disagree that the following statement is true: there are enough places for kids my age to go that are alcohol and drug free? **Response:** “Strongly agree” or “agree” are coded as favorable and “strongly disagree” or “disagree” are coded as unfavorable.

Note: The green portion of the bars represents the percent of respondents who responded favorably to all questions used to compute this construct; the red portion represents the percent of respondents who responded unfavorably to at least one question included in this construct.

HEALTHY YOUTH – AVOIDANCE OF RISKY BEHAVIOR

2010 IYS Questions: B26; B30. During the last 30 days, on how many days did you have 5 or more drinks of alcohol (glasses, bottles or cans of beer; glasses of wine, liquor, mixed drinks) in a row, that is within a couple of hours? In the past 30 days, on how many days have you had at least one drink of alcohol (glass, bottle or can of beer; glass of wine, liquor or mixed drink)? **Response:** "0 days" is coded as favorable; if there is missing data for any response and all other responses are favorable, the record is coded as favorable; if all responses are missing, the record is coded as favorable. Any response indicating 1 or more days of use is coded as unfavorable.

Note: The green portion of the bars represents the percent of respondents who responded favorably to all questions used to compute this construct; the red portion represents the percent of respondents who responded unfavorably to at least one question included in this construct.

2010 IYS Questions: C18; C19; C20; C21; C22; C23; C24. How much do you think you risk harming yourself (physically or otherwise) if you: drink 3 or more drinks (glasses, cans or bottles of beer; glasses of wine, liquor or mixed drinks) of alcohol nearly every day; smoke cigarettes every day; smoke marijuana once a week; take methamphetamines (crank, ice) once a week; take cocaine once a week; take amphetamines other than methamphetamines (like stimulants, uppers, speed) once a week; use any other illegal drug once a week?

Responses: "Great risk," "moderate risk," "slight risk" or "don't know" are coded as favorable and "no risk" is coded as unfavorable.

Note: The green portion of the bars represents the percent of respondents who responded favorably to all questions used to compute this construct; the red portion represents the percent of respondents who responded unfavorably to at least one question included in this construct.

2010 IYS Questions: B88; B91; B93; B94; B95; B96; B97. In the past 12 months, how often have you: carried a gun, knife, club, or other weapon to school; been disciplined at school for fighting, theft, or damaging property; damaged property just for fun (like breaking windows, scratching a car, etc); beaten up on or fought someone because they made you angry; used a weapon, force, or threats to get money or things from someone; verbally threatened to physically harm someone; stolen something? **Responses: B88 and B95** – “None” is coded as favorable and “1 or 2 times,” “3-5 times,” or “6 or more times” are coded as unfavorable. **B91, B93, B94, B95, B97** – “None” or “1 or 2 times” are coded as favorable and “3-5 times” or “6 or more times” are coded as unfavorable. **Note:** The green portion of the bars represents the percent of respondents who responded favorably to all questions used to compute this construct; the red portion represents the percent of respondents who responded unfavorably to at least one question included in this construct.

SOCIALLY COMPETENT YOUTH

2010 IYS Questions: C1; C2; C3. How much do you agree or disagree that each of the following statements is true: it is important to help other people; I care about other people’s feelings; I feel sorry for people who have things stolen or damaged? **Responses:** “Strongly agree” or “agree” are coded as favorable and “strongly disagree” or “disagree” are coded as unfavorable.

Note: The green portion of the bars represents the percent of respondents who responded favorably to all questions used to compute this construct; the red portion represents the percent of respondents who responded unfavorably to at least one question included in this construct.

2010 IYS Questions: C12; C13; C14; C15. How much do you agree or disagree that each of the following statements is true: I accept responsibility for my actions when I make a mistake or get into trouble; I am good at making friends; when I have problems, I am good at finding ways to fix them; I think things through carefully before I make a decision? **Responses:** “Strongly agree” or “agree” are coded as favorable and “strongly disagree” or “disagree” are coded as unfavorable.

Note: The green portion of the bars represents the percent of respondents who responded favorably to all questions used to compute this construct; the red portion represents the percent of respondents who responded unfavorably to at least one question included in this construct.

2010 IYS Questions: C7. How much do you agree or disagree that the following statement is true: I feel I do not have much to be proud of? **Response:** “Strongly disagree” or “disagree” are coded as favorable and “strongly agree” or “agree” are coded as unfavorable.

Note: The green portion of the bars represents the percent of respondents who responded favorably to all questions used to compute this construct; the red portion represents the percent of respondents who responded unfavorably to at least one question included in this construct.

2010 IYS Questions: C4; C5. How much do you agree or disagree that each of the following statements is true: I am accepting of those different than myself (racially, culturally, socio-economically); it is wrong to discriminate against someone because of her/his race, appearance, culture, religion, etc? **Responses:** “Strongly agree” or “agree” are coded as favorable and “strongly disagree” or “disagree” are coded as unfavorable.

Note: The green portion of the bars represents the percent of respondents who responded favorably to all questions used to compute this construct; the red portion represents the percent of respondents who responded unfavorably to at least one question included in this construct.

2010 IYS Questions: C8; C9; C10; C11. How much do you agree or disagree that each of the following statements is true: violence is the worst way to solve problems; it is against my values to have sex as a teenager; it is important to tell the truth; it is against my values to use alcohol and drugs as a teenager? **Responses:** “Strongly agree” or “agree” are coded as favorable and “strongly disagree” or “disagree” are coded as unfavorable.

Note: The green portion of the bars represents the percent of respondents who responded favorably to all questions used to compute this construct; the red portion represents the percent of respondents who responded unfavorably to at least one question included in this construct.

2010 IYS Questions: C6. How much do you agree or disagree that the following statements is true: I can say “no” when someone wants me to do things I know are wrong or dangerous? **Response:** “Strongly agree” or “agree” are coded as favorable and a “strongly disagree” or “disagree” are coded as unfavorable.

Note: The green portion of the bars represents the percent of respondents who responded favorably to all questions used to compute this construct; the red portion represents the percent of respondents who responded unfavorably to at least one question included in this construct.

YOUTH SUCCESSFUL IN SCHOOL

2010 IYS Questions: E21; E22; E23; E27. How much do you agree or disagree that each of the following statements is true: I care about my school; I try to do my best in school; I plan to finish high school; I do the homework that is assigned?

Response: “Strongly agree” or “agree” are coded as favorable and “strongly disagree” or “disagree” are coded as unfavorable.

Note: The green portion of the bars represents the percent of respondents who responded favorably to all questions used to compute this construct; the red portion represents the percent of respondents who responded unfavorably to at least one question included in this construct.

YOUTH PREPARED FOR A PRODUCTIVE ADULTHOOD

2010 IYS Questions: C17. How much do you agree or disagree that the following statement is true: I believe that working hard now will make my life successful in the future? **Response:** “Strongly agree” or “agree” are coded as favorable and “strongly disagree” or “disagree” are coded as unfavorable.

Note: The green portion of the bars represents the percent of respondents who responded favorably to all questions used to compute this construct; the red portion represents the percent of respondents who responded unfavorably to at least one question included in this construct.

BULLYING

2010 IYS Questions: B98; B99; B100; B101; B102; B103; B104; B105. In the last 30 days, how many times have you been bullied at school in the ways listed: I was called names, was made fun of, or teased in a hurtful way; other students left me out of things on purpose, excluded me from their group of friends, or completely ignored me; I was hit, kicked, pushed, shoved around, or locked indoors; other students told lies, spread false rumors about me, and tried to make others dislike me; I was made fun of because of my race or color; I was made fun of because of my religion; other students made sexual jokes, comments, or gestures that hurt my feelings; I have received a threatening or hurtful message from another student in an email, on a website, on a cell phone, from pager text messaging, in an internet chat room, or in instant messaging.

Responses: "0 times" is coded as favorable and any response indicating one or more times of being bullied is coded as unfavorable.

Note: The green portion of the bars represents the percent of respondents who responded favorably to all questions used to compute this construct; the red portion represents the percent of respondents who responded unfavorably to at least one question included in this construct.

2010 IYS Questions: E6. When a student is being bullied at school, how often do the teachers or other adults at school try to put a stop to it? **Response:** “Almost always” or “often” are coded as favorable and “almost never,” “once in a while,” or “sometimes” are coded as unfavorable.

Note: The green portion of the bars represents the percent of respondents who responded favorably to all questions used to compute this construct; the red portion represents the percent of respondents who responded unfavorably to at least one question included in this construct.

Appendix I. Counties, Participating Public School Districts, and Non-Public Schools

Data from students residing in the following counties are included in this Iowa Substance Abuse Prevention Service Area report.

Cerro Gordo County
Floyd County
Franklin County
Hancock County
Mitchell County
Winnebago County
Worth County

Data from the following public school districts and non-public schools are included in the "Prevention Service Area Results" portion of the data tables and constructs.

AGWSR Community School District
Alden Community School District
Algona Community School District
CAL Community School District
Charles City Community School District
Clear Lake Community School District
Corwith-Wesley Community School District
Forest City Community School District
Garner-Hayfield Community School District
Hampton-Dumont Community School District
Iowa Falls Community School District
Lake Mills Community School District
LuVerne Community School District
Mason City Community School District
Nasua-Plainfield Community School District
Nora Springs-Rock Falls Community School District
North Central Community School District
North Iowa Community School District
Northwood-Kensett Community School District
Osage Community School District
Riceville Community School District
Rockwell-Swaledale Community School District
Rudd-Rockford-Marble Rk Community School District
Sheffield Chapin Meservey Thornton Community School District
St. Ansgar Community School District
Titonka Consolidated Community School District
West Hancock Community School District
Woden-Crystal Lake Community School District
